E. Enclosures

17 For New Applicants.

I enclose a cheque for £40.00 Entrance Fee made payable to The Institute of Domestic Heating & Environmental Engineers.

18 For Upgrading Applicants.

I enclose a cheque for £20.00 (NOT APPLICABLE TO ALL CURRENT STUDENT MEMBERS) made payable to The Institute of Domestic Heating & Environmental Engineers.

Payment of your usual subscription should not be delayed pending the outcome of your upgrading assessment. If you are successful in your application, the higher subscription will only apply from your next annual renewal.

19 I enclose photocopies of my relevant qualifications. (Please do not send originals).

20 I enclose one completed reference form. (Others will be taken up if required).

21 I enclose additional information for consideration of the Executive Council.

F. Declaration

I declare that the statements made in this application form and the enclosed supporting information are correct and that if having been deemed eligible by the Executive Council for election into the grade of I will be governed by the byelaws and constitution as they now are, or may in the future be formed.

I will at all times uphold the dignity of the Institute and will not abuse the privileges incidental to membership.

I will advance the objects of the Institute to the best of my ability and will refrain from recommending for membership any person whose election would reflect adversely upon the dignity of the Institute.

I undertake to renew annually the validity of my Diploma by promptly remitting my annual subscription. I acknowledge that the Diploma is indicative of my status in the Institute and shall be returned should I withdraw from membership, which may only be affected upon giving the statutory notice as required by the byelaws and after payment of any arrears which may be due from me.

NOTES TO GUIDE CANDIDATES

To assist candidates in completing the application form the following notes have been compiled from the questions that are most frequently asked. If you have any further queries when completing the form, do not hesitate to contact the Membership Secretary on 01895 820954 or E-mail apply@idhee.org.uk.

A Personal Details

Self-explanatory.

B Qualifications

Technological - Give as much information as you can recall - it all helps to achieve your desired status in membership. Photostat copies of certificates are required. Please do not send originals.

Commercial - Any courses taken, commerce, management, servicing, trouble shooting, design and any manufacturers' special equipment courses.

Apprenticeships or equivalent - this is the background, about how you started in the industry, where you gained that important first knowledge.

C Career

Be as explicit as possible, giving company names and job responsibility Where necessary use a separate sheet and staple it to the application form.

D References

Although it is desirable, it is not essential that your referees are members of the Institute. Provided that they can give details of your background in the industry then references from other professionals such as engineers, architects, surveyors etc. will be very acceptable. Please forward the enclosed reference form to one of your referees for completion. Please give the name, address and telephone number of this referee and one other in section D. References. Where possible please return your reference with the application form.

E Enclosures

If you have had the opportunity to specialise in a subject or the chance to carry out research, it would be useful to mention this here. Also add any additional information you would like to give in support of your application which you feel the application form has not covered. Do not forget to sign and date the form.

EXTRACTS FROM THE BYELAWS OF THE INSTITUTE

The Aims and Objects of the Institute are:

- a) To Promote the advancement of the science, practice and business of domestic heating and environmental engineering and the like in all its applications and aspects both in relation to the perfection of its methods and the extension of its services to the Community.
- b) To improve and elevate the technical and general knowledge of persons engaged or about to engage in domestic heating and environmental engineering and all allied Technologies and to make available information on technical problems related thereto. To devise and provide means for testing the qualifications of Candidates for admission to membership of the Institute by examinations in theoretical Technology and Design practice, and to grant scholarships, exhibitions, prizes or medals and certificates or diplomas of membership to the successful candidate.
- c) To encourage invention and research in the science, technology and practice of domestic heating and environmental engineering and allied Technologies and to arrange for the carrying out of such research on behalf of specific members at such terms as may be expedient.
- d) To record and classify information in respect of particular items of equipment, materials and plant relative to domestic heating and environmental engineering and to make such Information available to members by co-operating with manufacturers of such equipment, materials and plant.
- e) To record and classify information relating to services rendered by members of the Institute and by the maintenance of such records to effectively be of assistance to the general public by bringing to their notice the merits of the members.
- f) To promote means for communication and to facilitate the interchange of information, views and ideas on all matters of common interest in the sphere of environmental engineering and allied technologies.
- g) To exercise professional supervision over the members of the Institute and secure for them such recognition of their professional standing as may assist them in the discharge of their duties.
- h) To do all such things as may be incidental or conducive to the attainment of the foregoing objects or any of them.
