

**Movement within, or a relocation of your business?**

**Our Move Management makes IT less of a headache.**

**Whether it's at an office move, a building restack, regular personnel churn, or a full-blown building relocation, our Move Management can make the process of transferring and reinstalling of your IT a painless procedure.**

## Get moving. Stay connected.

From an internal office move, a building restack, regular personnel churn or a full-blown building relocation service, at CAT we have the experience and knowledge to ensure that every aspect is covered.

### Protecting your IT infrastructure, protecting your business

We provide a comprehensive list of relocation and Move Management services, including decommissioning and re-commissioning of data centre, comms room and desktop IT services. We work with you to establish the best plan with the least disruption to be delivered within your budget.

We safely manage the movement of your IT hardware including Comms Racks, Servers, PCs & Printers, Dealer systems, Telephone switches and hardware, AV Screens and almost any other piece of IT kit that you have.

### Efficient movement, seamless service and no surprises

Packaged and protected, we transport and re-instate, patch at the desk and in the Comms room and will provide support on the morning following the move to deal with minor amendments.

When regular office moves are undertaken, a fixed cost or matrix pricing can be provided. This approach helps to create and work within budgets and assist with departmental recharging.

These services are tailored to your business and there are no surprises.

#### Our packages also offer:

- Provision of crates for personal belongings
- Bubble and protective wrapping
- Furniture dismantle and reassembly
- Audits of furniture and IT Hardware
- Repatching services
- Move coordination
