# Schedule24 Scheduler

**Can be deployed over standard Windows® networks so a range of business operations can benefit from a having a clear staff plan.**

Team Leaders and Line Managers have shared access including:

- Create and manage staff schedules
- Monitor staff hours and costs
- Record absences
- Schedule assignments and tasks
- ACM control for flexible staff working
- Send out email schedules direct to staff
- Publish web schedules for universal access

A standalone solution enables even the smallest operation to benefit from staff schedules that can be managed locally and published globally via the web.

Operations staff can see their schedules anywhere in the organisation via email or web browser.

Schedule24 Scheduler
