

Composite door range guide

## Don't compromise, go composite

We don't believe in compromising on quality. We've brought together materials to give you the very best in strength, easy maintenance, security, and weather resistance. Oh – and great looks as well.

Behind that rather scientific-sounding name, you'll find the latest technology and design in doors. And when you're indoors you'll enjoy loads of style, strength and security.

Our composite door is thick – but it's also very smart. In fact it's 44mm thick (compare that to conventional PVC panel doors at 28mm). And powerful too, its super-strong structural frame and up-to-the-minute hardware makes our composite door even more secure. Its' glass reinforced plastic finish means you'll be secure in all weathers. And enjoying great looks for years to come.
