

EDGE® Vendor Portal

The Easy-to-Use Cloud Based Drop Ship Solution

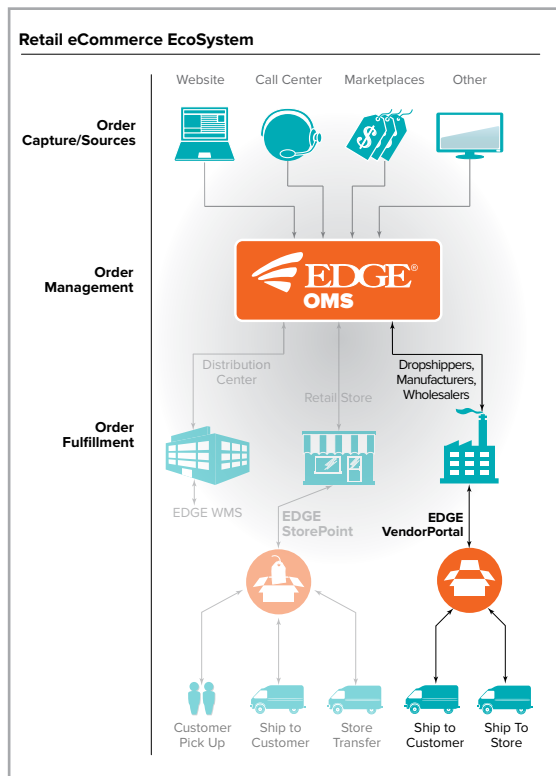

VendorPortal is a ready to deploy, cloud based solution for retailers who utilize product suppliers, distributors, and manufacturers to ship sales orders directly to customers on their behalf. VendorPortal is powered by Jagged Peak's EDGE Enterprise Commerce Platform and designed specifically to support product vendors who lack the technical capabilities to utilize EDI or prefer a cloud based solution for order shipment requests and inventory updates.

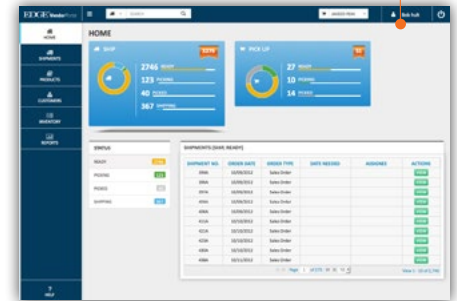

With VendorPortal you can transmit orders, receive shipment confirmations, and enable product suppliers to update inventory status to support real-time availability to promise. EDGE VendorPortal provides vendors and merchants with full visibility of all dropship program transactional activities.
