

## ADM Risk, Regulation & Strategy Ltd announcement: Brexit updates

Dear clients and colleagues,

Greetings. In a follow-up to the September 2016 launch of the new ADM Risk, Regulation & Strategy Ltd ('ADM') [website](#), we have now updated the [Brexit](#) section to reflect developments that have occurred in the intervening period. Most notably, we have expanded the subsection on [passporting and equivalence](#) to reflect recent reports by Oliver Wyman, Open Europe and Politeia, all of which provide further context to the passporting statistics set out in the FCA's 17 August 2016 letter to Andrew Tyrie, MP, Chair of the Treasury Committee.

Links are provided to these four documents and other briefing materials which are currently available, but are not always easy to locate. All risk and regulatory projects will need to take Brexit into account, so our resources section both reflects this reality and demonstrates our suitability to take on Brexit assignments for clients whether they be in the UK, the remaining 27 EU member states, or outside of Europe.

We would also like to welcome new subscribers to this newsletter and thank our loyal clients and colleagues for their continued support. If you are looking for assistance on risk and regulatory projects, our [service](#) offering reflects a series of projects we have carried out for trade institutions and financial services firms on a wide range of topics including market infrastructure, capital and liquidity requirements, crisis management, tax and supervisory issues.

Please do get in touch if you would like more information about our services – our [contact us](#) page includes our full details together with a contact form.

Best regards,

Anita Millar,  
Director  
ADM Risk, Regulation & Strategy Ltd
