EXPANDING COLLISION CENTER BUSINESS

EZ-ADAS SYSTEM

EXPANDING COLLISION CENTER BUSINESS

NEW EZ-ADAS

EZ-ADAS is the latest solution for ADAS system recalibration after collision repairs, component replacement, or wheel alignment. It's the perfect answer for collision repair centers looking to diversify their business by having the capability to complete the entire repair process on most ADAS-equipped vehicles that come through their door.

EASY

The simple three part system sets up fast and is fully mobile. EZ-ADAS Recalibration System minimizes the number of components required and folds when not in use to reduce the space needed for storage. It eliminates the complexity included in other ADAS systems.

ACCURATE

The highly accurate laser positioning system, combined with a unique target placement, allows any technician to quickly position the target in the OEM required location. It's simple to use and requires minimal training.

OEM PROCEDURE BASED

Finding repair procedures can be complicated. But we can make it easier for you. We've taken the time to understand the OEM procedures so you don't have to.

The EZ-ADAS target placement guide uses clear, easy steps directly identified from the OEM of the vehicle you are repairing, eliminating uncertainty and the need to look for information in multiple locations.

FEATURES AND BENEFITS

- **LASER-ENABLED MEASUREMENT AND INTUITIVE TARGET ADJUSTMENT FEATURES** reduce the risk of errors with superior measurement instructions and system precision to guarantee exact recalibration
- **UP TO 40% FEWER STEPS** than other aftermarket ADAS systems
- **REPAIR INFORMATION IS PROVIDED** In a single, easily referenced guide and presented in a clear step-by-step color coded process
- **ROBUST OEM BASED TARGETS** with coverage for the most common makes included

MOBILE APP

DESIGNED FOR SIMPLE AND FAST SETUP

KEEP CALIBRATIONS IN HOUSE

Don't be left behind, Advanced Driver Assistance Systems (ADAS) commonly referred to as drivers' aids or safety systems, are not coming, they are already here.

ADAS creates new challenges for all collision repair centers doing business today. Even seemingly simple repairs can result in the need for sensor recalibration. We can make it easier for you.

The EZ-ADAS Recalibration System is an innovative collection of precision tools with leading-edge design. The system features a unique, fast and precise centerline setup, based on OEM procedures, for easy operation.

Intuitive laser-guided target placement ensures accurate, error-free positioning and increases productivity.

EZ-ADAS integrates with a shop's processes, working with most of the existing alignment equipment and diagnostic scan tools with ADAS coverage.
