**Kapco Global**  
Aerospace Parts & Distribution Solutions

# A world of parts

With over 40 years of experience, Kapco Global has grown from a specialist supplier of seals and gaskets, to a global provider of aerospace parts and distribution solutions.

As a leading stocking distributor, we understand that for aircraft operators, maintenance providers, manufacturers and our supply chain partners, time is a precious commodity. We know how complex aerospace maintenance is. Our job is to make your life easier, by providing the right parts, in the right place, at the right time.

**Because time matters.**

We are now aligning our service offer to better meet the needs of this market: more parts, locally available, delivered faster, and more cost-effectively. And we have embraced the 'value of time' as a core part of our strategic realignment, reflecting its importance to the industry.

Currently, Kapco Global supports more than 400,000 parts for commercial, business, military, and rotary wing aircraft, globally, through our distribution centers in the US, Europe and Asia. This wide product range has been developed to reflect the needs of our customers.

We constantly review and adapt this range, in line with industry developments, delivering for the most modern platforms while also maintaining levels of the most essential components for legacy fleets.

Within this product guide, you will find a small sample of our products. We welcome the opportunity to share our full inventory and to discuss your needs. For more information and to discover what Kapco Global can do for you, simply email [sales@kapco-global.com](mailto:sales@kapco-global.com) or call your local Kapco Global representative at any time.

# Looking forward

As the aerospace market continues to develop and grow, we are well positioned to deliver whatever our customers need: a more flexible, proactive and efficient distribution service, based on intelligence, integrity, intimacy and innovation. As new market opportunities emerge in Asia, the Middle East and South America, as well as in mature markets, we look forward to supporting our aircraft operators, maintenance organizations and OEM customers – wherever they may be.
