

# Electrical installation in the bathroom

Below are industry guidelines with regards to electrical installations in bathrooms. All our products are safe to use in Zones 1, 2 and 3.

Refers to the area above the bath or shower up to a height of 2.25 meters and requires a minimum rating of IPX4 (splash-proof).

Covers an area of 0.6 meters wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

Has no special requirements, unless water jets are likely to be used for cleaning purposes.
