

Paper Shredding Services raise £10,000 for the Beatson Cancer Charity

September 2019

Ron and Steven Hill returned to the Beatson Cancer Centre to meet their Corporate Partnership Manager, Joyce Ross.

Over recent years Paper Shredding Services has been making donations to the charity with the level of these donations linked to the amounts of paper shredded and recycled each month.

Joyce was keen to raise awareness of the importance of corporate partnerships to the Beatson and to publicise the good work done by Paper Shredding Services.

“We are delighted to be collaborating with Ron and Steven Hill of Paper Shredding Services in this fundraising initiative. In just three years they have raised more than £10,000 and they remain as passionate and committed as ever. This money will be used to help support our work at The Beatson West of Scotland Cancer Centre. From providing wellbeing and patient care services to funding pioneering research and clinical posts, Beatson Cancer Charity reaches out to patients and families across the West of Scotland and beyond. We are very grateful to Ron and the team for all they are doing to help make this happen.”
