At IBottles we constantly monitor the market and UK and European legislation to ensure compliance is met.

Our LDPE & PET range comply with:

- ✓ **British & European Standard BS EN ISO 8317:2015**
- ✓ **Tobacco Products Directive (TPD) & Directive 2014/40/EU of the European Parliament and Council of April 2014.**
- ✓ **FDA Certified**

For bottles to comply with the Tobacco Products Directive they must be 10ml or less.

Our Tamper Evident bottles and Square PET bottles are currently ISO 13127 pending and do not currently comply with TPD regulations.

For more information please visit our website, email us or call us on the contact details below.

We strongly advise that once a seal has been broken that bottles should be closed tightly to avoid any spillage's and to ensure that CRC is effective. See specification for each bottle for closing torque.
