

Software
Command. Control. Inform.

Meridian Command

Meridian Command is a software package that schedules and controls a fleet of resources to manage time critical transportation.

Mission Critical Software

Delivering software solutions which, through our customers, make a **positive difference** to people's lives.

Designed for mission critical operations, Meridian Command can be deployed in 24 hour, 365 day control centres.

Operators can customise displays to suit their needs and our flexible user interface can fit across multiple monitors. Meridian delivers real cost savings by utilising your resources more efficiently as well as incorporating reporting tools allowing you to measure and demonstrate your KPI's.

Increase efficiency and excellence:

- Automatic scheduling module to plan activity
- Planning toolkit to plan future demand
- Real time monitoring of activity against planned transport times
- Displays client status which improves response
- Easy management of late transport requests

Cost savings:

- See the location of your resources and clients on a map in order to utilise the best match
- Reduce staff whilst maintaining productivity
- Reduce data entry time and paperwork
- Rationalise pick up and drop off journeys

At a glance...

Total visibility of performance standards 

System uptime **99.99%** 

Completely customisable for ease of use 

Reporting accuracy **100%** 

Simply interfaced into your existing systems 

 The Meridian system has helped improve the efficiency of Bristol Ambulance EMS and allowed us to provide an even more responsive service. Implementation of the new system was a smooth and speedy process and 3tc Software provided comprehensive training to our staff which has enabled us to start seeing the benefits from it straight away.
