

## Quay Fenders and Corner Fenders

Anchor Marine has been manufacturing inflatable buoys and fenders in the United Kingdom for over 50 years. Our wide range of buoys can be found in both hot and cold climates internationally, recognised universally by our 'blue spot'.

Popular for commercial and leisure use, the practical design, resistance to bursting, exceptional ruggedness and durability are synonymous with Anchor Marine products.

### Quay Fenders

There are two types of quay fenders available to suit most requirements.

For applications where quay fendering is required, the 0054 and 0055 inflatable fenders should be used. Easily fitted with pop rivets or screws, this fendering gives excellent protection. These fenders do not offer complete protection.

A cutaway version 0055 allows for neat fitting to berths with wooden rubbing bands.

Part no	Length x width x height		Weight kgs
	cms	inches	
0054	43 x 18 x 8	16.8 x 7 x 3	1.00
0055	43 x 18 x 8	16.8 x 7 x 3	1.00

0055

### Corner Fenders

The rugged, easy-to-install corner fender is designed to give protection to boats with vulnerable transoms. It is especially popular with canal and river users or those in crowded marina situations. These fenders also give good protection when fitted to the exposed corners of marina berths or finger pontoons. Two mounting strips are provided with each unit. These are sealed units and are not re-inflatable.

Part no	Length x radius x width		Weight kgs
	cms	inches	
0201	5 x 4 x 4	13 x 10 x 10	0.90
0207*	16/11 x 6 x 7	6/4 x 3 x 3	1.00*
0209	16 x 14 x 11	6 x 5 x 4	1.20
