

## Top Tips For Game Inventing

Looking for inspiration to get inventing?  
Check these top tips for inventing a winning game...

### What type of game do you most enjoy playing?

Board games, card games, puzzle games, building games, etc.  
Focus your creative juices where you already enjoy playing.

### What game ideas have you already come up with?

Is there an existing game you've already created a variation on or a game you like to play in the car? The idea doesn't have to be new – just good!

### Do some fun research!

Have a look at the games you have at home, or head to a car boot sale or charity shop to pick up some new games cheaply. It all helps to fuel your imagination...

### Think about a subject you know a lot about

It could be a TV series, character from a book, or favourite hobby.  
It might just be waiting for your brilliant game idea!

### Ask your family and friends for help

Not to come up with the ideas, but to remind you of the ideas you've had in the past, the subjects you love, the games you're good at.  
Let them be your memory!

### Find some good 'sounding boards'

Find someone who gets the way you think, and share your game ideas with them. They'll tell you which ideas are good, which ones need improving, and how to make them better.

If you've got a great idea, but need some help turning your idea into a game - download our ultimate guide to inventing a board game.
