DURASUCKER

🇬🇧 Rubber Suckers Ventosas

🇬🇧 The range of DURASUCKER Rubber Suckers have been developed to offer a durable and consistent performance when used in sheet feeders. Available for almost any printing press, packaging machine or mailroom equipment in the market place.

🇪🇸 La gama de Ventosas de Goma DURASUCKER se han desarrollado para ofrecer un rendimiento duradero y consistente cuando se utiliza en alimentadores de hojas. Disponible para casi todos los equipos de impresión enbalaje y otras aplicaciones del mercado.

🇬🇧 APPLICATION

- Rubber Suckers are fitted to the suction area on the feeder system.
- Precision shaped to lift the paper or board upon contact without sheet slip or double feeding.
- Perform consistently at both slow start-up and fast running speeds.

RANGE

- Rubber Suckers are available in two styles:
 1. Shaped Rubber Suckers – popular on small presses and collators.
 2. Flat Suckers – popular on large Offset Press feeder system i.e. Stream feeder, Mabeg and Spiess.
- Rubber Suckers are produced to original equipment manufacturer specifications with variations available for different papers or boards.
- Comprehensive pictorial catalogue giving two dimensional picture or actual size diagram of each sucker by machine make and model.

Flat Sucker Thickness Range	
Thickness mm +/- 0.05	Colour Range
0.5mm	Light Blue
0.75mm	Red
	Light Blue
	Dark Blue
	Polyurethane
1.0mm	Grey
	Dark Blue
1.5mm	Red
2.0mm	Red

QUALITY

- Rubber Suckers are manufactured from natural rubber compounds to ensure that they do not release any synthetic lubricant or deteriorate from friction

- All Flat Suckers are available in colour coded material which indicates the thickness. This assists easy identification for re-ordering.

AVAILABILITY

- Flat Suckers and Rubber Suckers are available in polyurethane, vinyl, and silicone materials for the feeding of thin paper, heavy board and other special applications.

- Rubber Suckers are packed in quantities or multiples of 10 pieces.

- Flat Suckers are packed in quantities or multiples of 50 pieces.

APLICACIÓN

- Las Ventosas de Goma se encuentran ubicadas en el sistema de succión de la zona de alimentación de la prensa.

- Aportan una gran precisión a la hora de levantar el papel o cartón sin deslizamiento de hoja o doble alimentación.

- Rendimiento constante tanto para marchas lentas, como para la puesta en funcionamiento a alta velocidad.

GAMA

- Las Ventosas de Goma están disponibles en dos estilos:

1. Ventosas Moldeadas - populares en las prensas pequeñas y alzadoras.

2. Ventosas Planas - populares en grandes sistemas offset, incluyendo Mabeg y Spiess.

- Las Ventosas de Goma se producen acorde a las especificaciones originales del fabricante del equipo con variaciones disponibles para diferentes tipos de papel o cartones.

- Disponemos de un amplio catálogo, ofreciendo imágenes a tamaño real o diagramas acotados según máquina y modelo.

CALIDAD

- Las Ventosas de Goma se fabrican a partir de compuestos de caucho natural para asegurarse de que no liberan ningún tipo de lubricante sintético o se deterioran debido a la fricción.

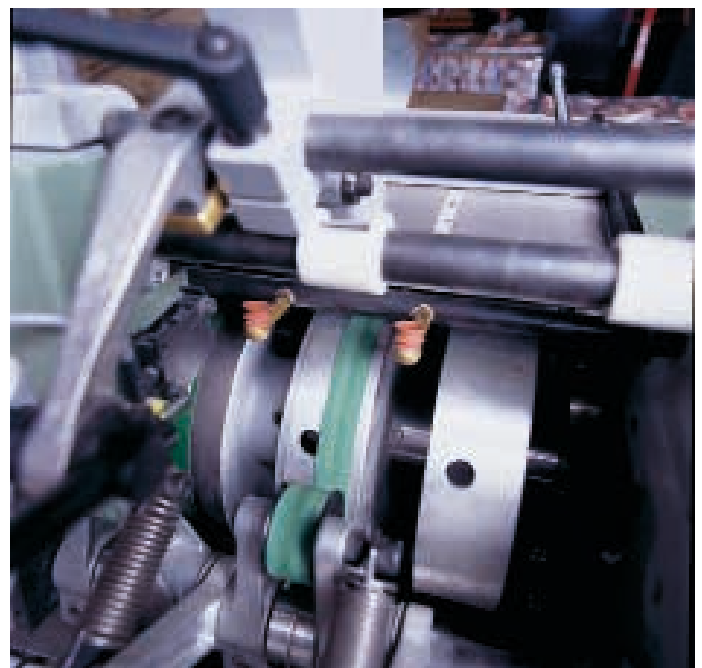

- Todas las Ventosas Planas están disponibles en diferentes colores para indicar el grosor de la misma. Esto ayuda a facilitar su identificación en caso de un nuevo pedido.

DISPONIBILIDAD

- Tanto las Ventosas Planas, como las Moldeadas, están disponibles en materiales de poliuretano, vinilo y silicona para los procesos de alimentación de papel fino, cartón grueso y otras aplicaciones especiales.

- Las ventosas moldeadas se presentan envasadas en múltiplos de 10 piezas.

- Las ventosas planas se presentan envasadas en múltiplos de 50 piezas.
