Lead Retrieval

THE LEAD RETRIEVAL SYSTEM

... is a fast and easy way for exhibitors to record delegate contact information. By simply scanning a delegate's name badge with the supplied scanner the contact is entered into your own online portal which will be set up by K.I.T. Group.

Enjoy the following features / USPs:

- Safe and secure iOS system
- Easy-to-operate touch screen and app interface
- Fast and secure scanning for symposia
- Customized qualifiers and survey for exhibitors
- Statistics available on the portal
- Onsite support by K.I.T. Group
- Daily synchronization available

Device:
iPod Touch

Booking Offers:

- **1. Scanning for Symposia**
  Including the device, application and synchronization per symposium. Hostesses not included.

- **2. Scanning for Exhibition Area**
  Including the device and application for the entire exhibition. Onsite synchronization at the end of the conference is included.

  Additional Service – Daily Synchronization
