ABOUT DFC

DFC, manufacturer of valves and distributor of pumps has developed a unique and diversified portfolio of products catering for the mineral processing, power generation, water and effluent markets.

DFC, in collaboration with its local and worldwide distributors has built a sound customer base. DFC's systems provide end users with the service and the attention they deserve.

DFC constantly research the market, enabling DFC to penetrate global markets through its wholly owned international subsidiaries, Vent-O-Mat Australia, RF Valves Finland, RF Valves USA and Aveng Brasil.

DFC has a tradition of excellence in product quality, service and technical support throughout DFC's product brands and the company.

HISTORY OF DFC

DFC's roots originate from Blakeborough Valves (UK), Manufacturing gate, reflux and equilibrium float valves

1947

The company's name changed to VOSA, which still lives as a preferred specified brand today.

1971

Stewarts & Lloyds secure Cla-Val as a brand

1979

Stewarts & Lloyds secure the Tsurumi Pumps agency in SA

1980

Stewarts & Lloyds secure agreement with Saunders to manufacture under license locally

1980

Dorbyl Water acquire Biman Pneumatic Actuators

1995

Dorbyl Water acquire Mulric Hydro Projects - today known as Vent-O-Mat

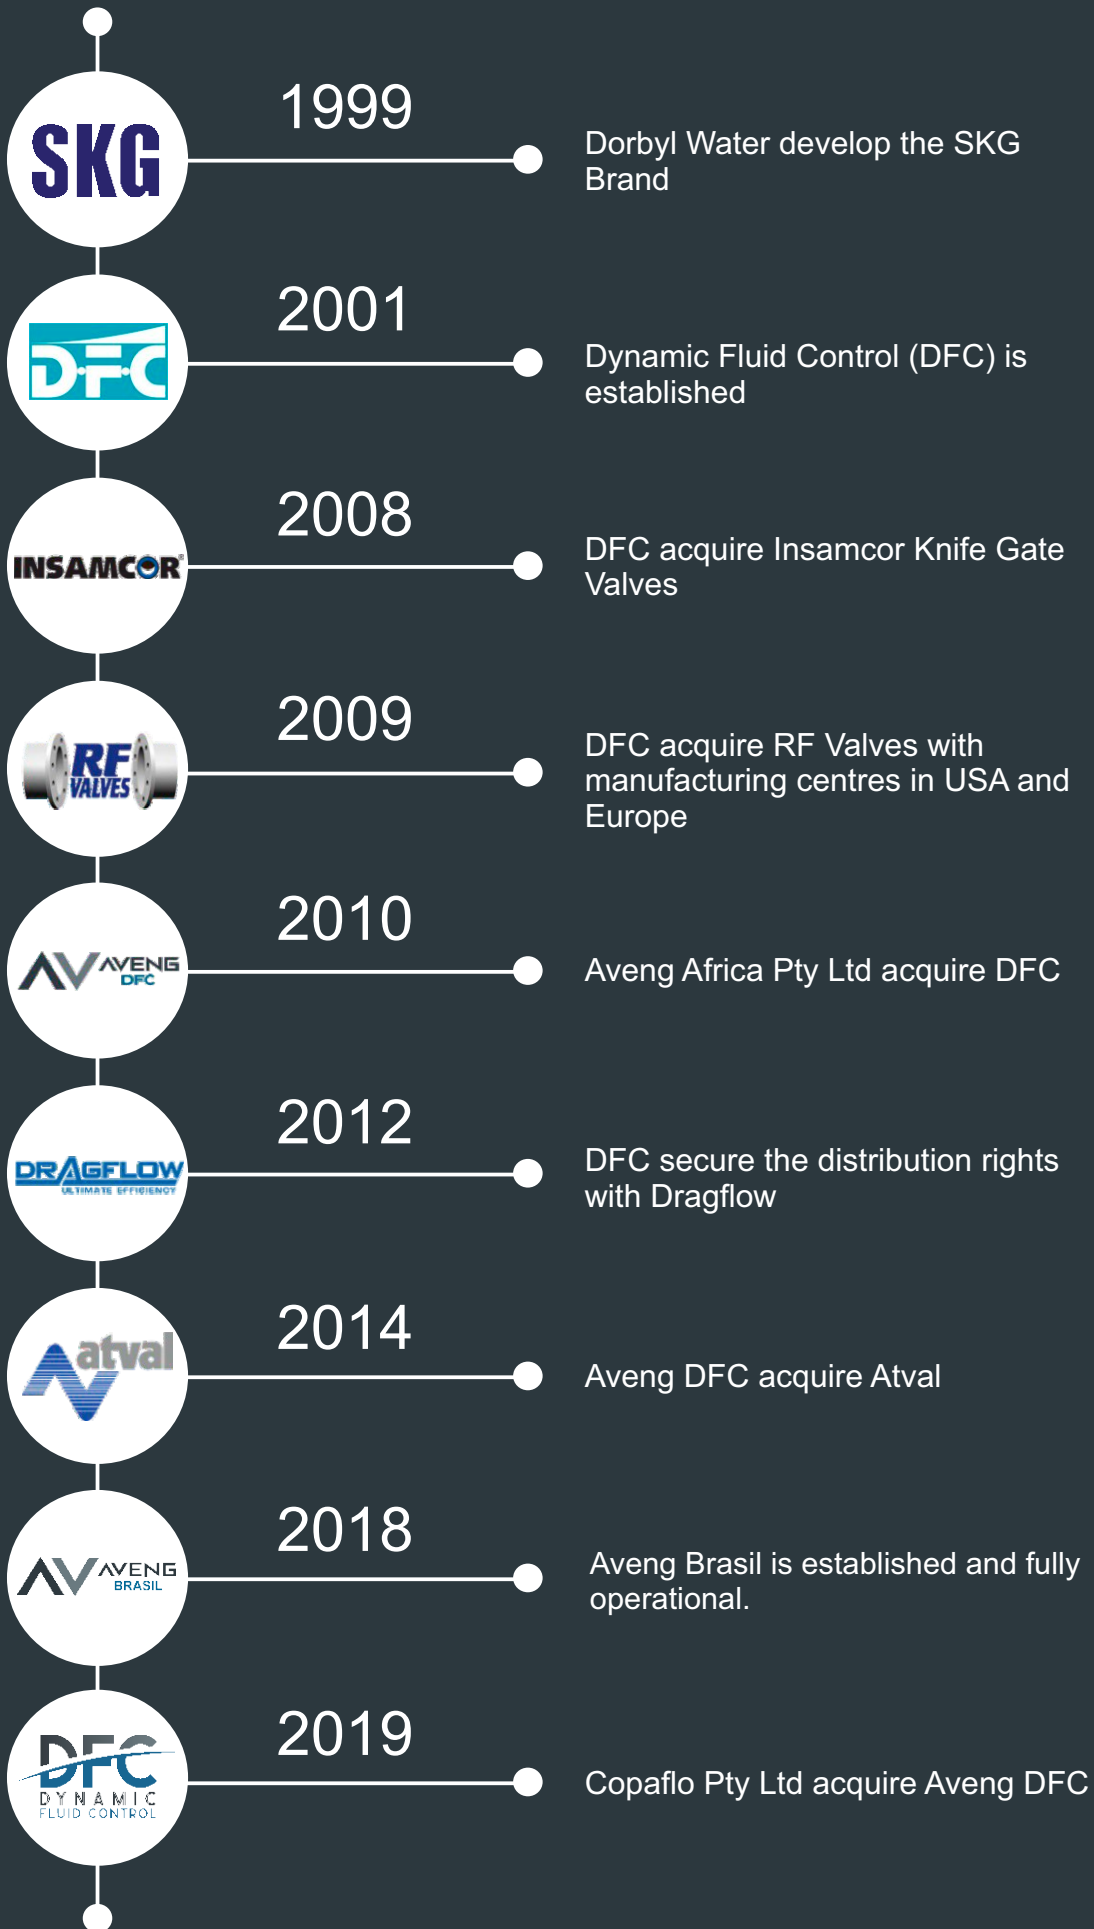

1996

VOM Australia Pty Ltd is established

1997

OUR MISSION AND VISION

DFC'S VISION

DFC strives to be a global, world-class manufacturer and supplier of valves in the water, effluent and mineral processing industries. In Africa we will be a value-add distributor of pumps and dredging equipment.

Capacity

We recruit and train innovative, first-class people who manage and operate world-class technology and systems.

Finances

Continuous revenue growth while maintaining the highest material margin in the defined industries to ensure maximum economic value created.

Customers

Be a preferred supplier by offering superb products and services to the right value-adding customers.

Processes

We are a standard setting, world-class manufacturer using the latest technology and techniques

DFC'S MISSION

Our global mission at DFC is to grow a world-wide distribution network through creating local offices who develop value-adding distributor networks, and create demand through specification on key development projects.

Innovation

We will continue to develop innovative valve solutions for the water, effluent, power, agriculture and mineral processing industries.

Demand Creation

By educating specifiers on our value-adding valve solutions, we aim to develop demand at project level, thereby ensuring sustainable growth for all our stakeholders.

Distribution Networks

We will create distribution centres with a network of distributors in the countries we have identified with high growth potential for our full range of brands, thereby ensuring a sustainable future for DFC and all its shareholders.

Talent Development

Manufactured in Africa, distributed to the world is our motto. Thus we want to develop South African talent by locating them in all subsidiary offices, thereby promoting the "Can-do" attitude of world-class South African leaders

OUR INDUSTRIES & BRANDS

MINING

Since 1982 DFC's mineral-processing brands are an integral part of mineral extraction activities in over 129 countries. DFC continuously explores the appreciation the human species has for the scarcity of jewels and gold.

WATER

Since 1947 DFC water brands have consistently excelled on the African continent in responsibly distributing potable water to our communities, from Cape to Cairo, Mogadishu to Monrovia.

EFFLUENT

Since 1947 DFC water brands have consistently excelled on the African continent in responsibly distributing potable water to our communities.

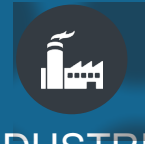

AGRICULTURAL

With increasing stresses in day to day life and similar pressure on food supplies, it is imperative to supply and consume fresh natural produce. These raw foods are required to restore balance in our lives.

POWER GENERATION

DFC brands support and assist in providing energy to the planet enriching population's globally with a base energy source for you and me to achieve, even more!

INDUSTRIAL

DFC's industrial product range empowers industries to excel in the production of minerals, metals and machinery to compete on the global stage.
