## Our Choice is to Care

With over 20 years of reputable construction experience across London & South East, we pride ourselves on offering a lifelong differentiated service that is moulded to the individual needs of our varying client groups. No matter the project or contract size our Company Directors take a personal interest in all phases of the works, epitomising our company mantra 'Our Choice is to Care'

Whilst overseeing many changes & advancements within the industry over the years, we have stayed true to our original vision: excel in our service; always exhibit care & attention through what we do & how we do it. That's what makes the difference.

Operating with our 'in-house' array of specialist resources combined with our historical external partnerships that add the required 'value-layer' where the project requires, we are able to provide an 'end2end' experience that provides clients with the peace of mind that one single point of accountability across the contract provides.

Our testimonials & client storyboards associated with our portfolio of works tells the story much better than we can. We trust that our credentials brochure offers you a suitable frame of reference for the breadth of our work & importantly, what creates the distinctive Hemmens Contracts experience through the approach that we take.

## Insurance Rennovations

Enduring Craftsmanship that Restores the Old in a Considerate Way.

**Always dedicated & devoted to your home.**

To create the best experience for you we take ownership of everything, proactively considering your needs throughout & creating a program of works that continually offers you peace of mind.

We specialise in fire, flood, storm & malicious damage to property, priding ourselves on having a highly skilled workforce with a wealth of expertise in this sector. Compassion, empathy & appreciation are valued attributes at this time & working together with our partnership infrastructure of loss adjusters, we are

able to provide you with a single service experience.

From initial surveying & strip out through to the careful & considered reinstatement of your home, we have the necessary resources, equipment & expertise to restore your property to the specification required.

**“The craftsmanship & attention to detail shown throughout has more than recreated our family home”**

## Residential Services

Creating your Vision that Reflects Personal Tastes & Modern Day Lifestyles.

**Listen better. Plan better.  
Build better.**

Whether it is a new build or a renovation, we always capture the crucial essence of client need. From choosing to explore all the different perspectives through our Company Directors, each phase of the work then follows our unique customer focused ten step approach to providing a finished article reflecting your personality.

In recognising the financial & psychological investment being made we choose to work through

each of the differing aspects of the build at a level of detail, seeking to explore your thinking & converting this into differing options using our industry experience & expertise for your careful & informed consideration. Each option is supported with itemised costs & indicative program of works, ensuring you have all the information you need at the outset & thereafter, throughout the build itself.

From phase to phase we facilitate regular fortnightly progress meetings that act as a review of works completed or underway as well as an opportunity to add or amend the scope based upon your current thinking.

“The communication & level of care provided by Hemmens was excellent. They certainly delivered on their promise to engage with us on every aspect of the build, ensuring our input was accounted for. It really helped to give us the confidence that we were making the right decisions & most importantly, ensuring that there were no hidden costs linked to the work that were heaped upon us”

## Commercial Services

Committed to Creating a New Dimension that Reflects Modern Working Practices.

### Your image is part of our reputation

Taking consideration and attention to detail to the highest level to provide for you & your employees a conducive environment that reflects modern working lifestyles. With reflective working environments proven to significantly affect energy, mood levels & our access to inspiration, the focus on 'getting it right' has never been greater.

Our experience & reputation across all commercial sectors in design & fit out enables us to manage the 'end2end' journey from conceptual design through to completion, alleviating any personal anguish in having to organise, deal or manage the full range of tasks associated with the contract. This offers

an integrated approach that provides a 'joined-up' experience for you that will positively reflect in time lines & your bottom-line cost.

Each initial appraisal is conducted by our Company Directors in person, establishing from you your personal requirements & reasoning followed by any aspirational ideas or concepts you may have. Once captured these will be transitioned to our qualified designers to provide some optional design schemes that reflect your company's brand together with a uniquely engaging use of work space that will stimulate employees & clients alike.

No matter what the specification, Hemmens Contracts are fully equipped to provide a smooth transition from yesterday's functional layout to tomorrow's engaging design.

# Design Impressions & Visuals

Dedicated to Helping You See Beyond What You See

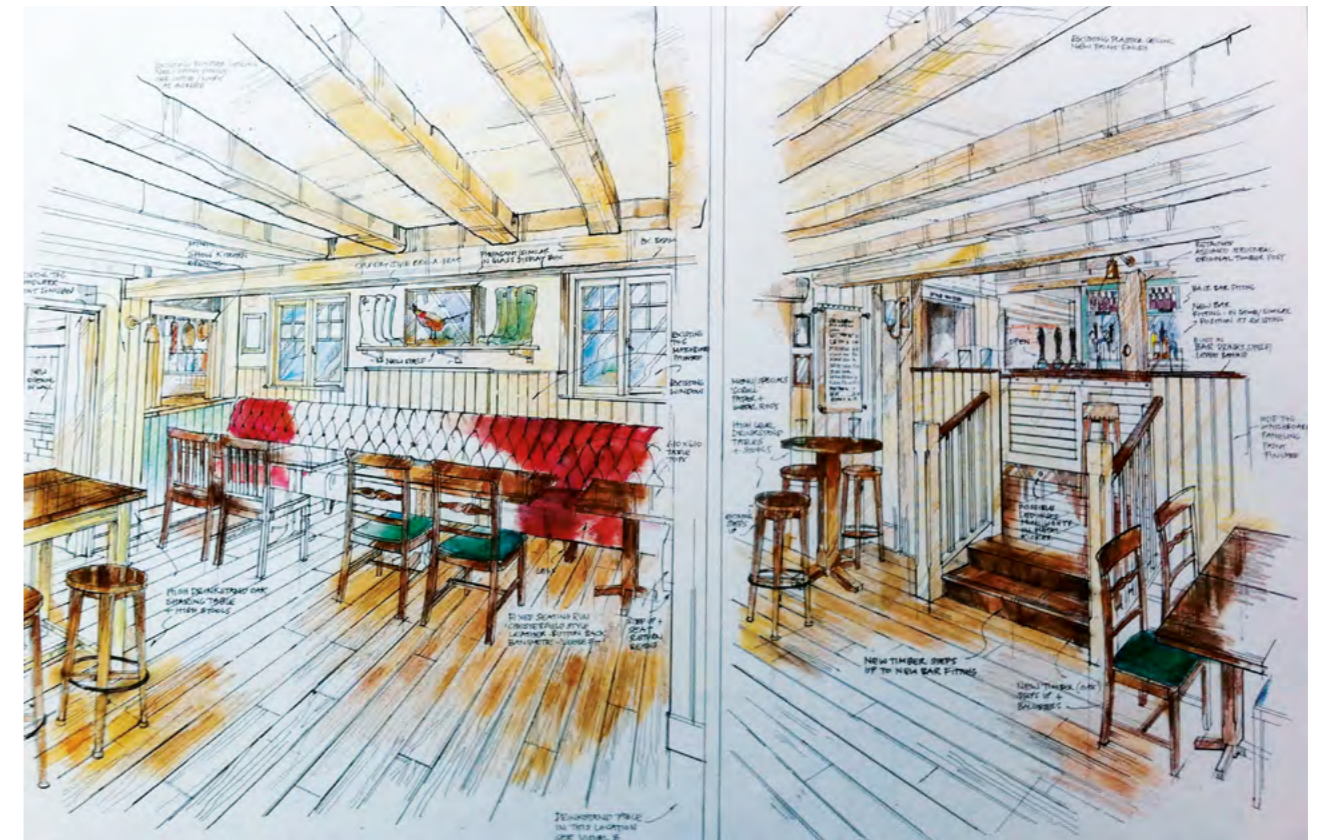

**Fresh ideas, inspirational designs, lasting memories.**

To contextualise & experience how any design could look aesthetically from exterior & interior perspectives offers you the ideal insight to base your property investment & lifestyle decisions. Its creation enables you to immerse yourself with your own guided tour of your design, so creating a powerful connection & association.

Our design impression & visualisation team work cohesively with the wider team, offering customers a view into personal concepts & ideas that are displayed & evolved with ongoing input.

This cross-over service combines creativity, flair & vision that you would expect from any fully customer centric company, incorporating specialist expertise that compliments our technical knowledge in construction. Our associate design team specialise in interior design, space planning, artists impressions & computer generated visuals with walk through experiences. Its a service made especially for you.

We know from experience how valuable this specific aspect of any proposed construction project can be. It is a service designed to help our customers make the right decision, as opposed to hoping a right decision is made

“It really helped me to see what it would look like. Intriguing & really useful...”
