Years

SUPER DESCALER

SUPER DESCALER is a unique water treatment system that solves hard water problems without using membrane, chemicals, magnets and without wastage of water and salt. SUPER DESCALER works totally with maintenance-free concept. It is very easy to install, no tools or plumbing work needed. Maximum electric consumption by device is Rs 80/Year and Rs 200/Year in special cases. SUPER DESCALER is an eco-friendly solution which protects the piping system and appliances of water against scale deposits and removes existing deposited scale. SUPER DESCALER reduces considerable maintenance cost, efficiency and prolongs the lifespan of household appliances like Geyser, washing machine, Dish washer, R O plant, Bathtub, Jacuzzi, shower heads, sinks and faucets along with saving on soaps and other cleaning agents. The SUPER DESCALER is Electric-Impulse base-Technology Which treats the water structure Physically by changing the crystallization structure of the water soluble calcium carbonate and magnesium, this is how the hard scale loses its adhesive power. Our SUPER DESCALER works independently of the water velocity criteria and it is suitable for all type of pipe materials.

High Lights :

- 1) Improves Restoration of water pressure affected by hardness of water.
- 2) Kitchen and bathroom fitting will be free from hard deposition of water hardness
- 3) Experiencing more dense foam from soap, shampoo and other cleaning agents
- 4) Retains important minerals of the water.
- 5) Waterproof device, ideal for outdoor fitting and harsh marine condition.
- 6) 5-year warranty

APPLICATION AREAS

General Applications

- ◆ Farmhouses, Bungalow, Apartments and Resorts.
- ◆ Swimming pools and Jacuzzis
- ◆ Private, Government and Corporate residential colonies and gardens.
- ◆ Irrigation systems
- ◆ And many more

Industrial & Commercial Applications

- ◆ Aluminium, Chemical, Car, Rubber, Printing, Textile, Maritime and cargo, etc. industry
- ◆ Injection molding
- ◆ Cooling towers
- ◆ Heat exchangers
- ◆ Food production
- ◆ Refineries
- ◆ Waste water treatment
- ◆ Educational Institutions and Schools
- ◆ Hospitals, Hotels, Restaurant and Cafe's
- ◆ Yachts Naval Ships
- ◆ Condominiums and Large Buildings
- ◆ And many more

SUPER DESCALER MODEL AND SPECIFICATIONS

Max Pipe Size and Model	UP TO 3" (SD-D)
Max Capacity	10,000 L/h
Voltage	12 V
Wattage (Consumption)	Less than 1 W
Applicators	Four
Device dimension	10" X 2.5" Dia
Frequency range	Dual Variable Frequency
Installation Required Space	1.25 Meter
