

Our IMPACT Toolkit™ contains World Class Methodologies recognised for their effectiveness in a very broad range of industries and essential for achieving Operational Excellence

IMPACT Toolkit™ 5S for Continuous Improvement Facilitators is a 2-day workshop teaching you how to train others in 5S (WORKPLACE ORGANISATION) and facilitate successful, sustainable 5S programmes in your business.

This is a highly practical workshop where delegates have the opportunity to practise 5S implementation during the workshop, test many of the theories and visualise the development of 5S in a safe learning environment.

"I want you to know you are the people that completely changed me and because of that I changed Montiac and now I am changing Caterpillar...I always recommend your company here and everywhere... you guys really change people"

Roberto Soto Rodriguez CI Facilitator,

Who should attend

This is applicable to any industry sector including industrial, health, education, transport, facilities management, construction, NGO, IT, support services and others.

The workshop is most suitable for those responsible for training others in 5S and facilitating programmes to improve workplace organisation in their business.

It will also provide an ideal initiation in Lean tools and techniques for those developing their own continuous improvement toolkit.

Why attend

Industry has many examples of abandoned 5S initiatives which leave a lasting legacy among the workforce.

- Get it right first time by achieving the buy-in you need, learn how to engage employees from experienced proven facilitators of change
- Fully understand where 5S sits as a foundation of Lean and Operational Excellence
- On this workshop, delegates develop a full understanding of the origins, principles and methodologies of 5S including reference to customer-based case studies on how to make 5S sustainable
- Through practical exercise, materials and templates, delegates leave this workshop ready to implement successful programmes at
