Parents,

       This year we are excited to announce the continuation of a Gaming and Digital Arts Club for our middle students in grades 5th – 8th. The club will meet once a week on Tuesdays starting the week of February 11th from 3:00PM – 4:00PM on the Southfield School campus in the tech lab. This 10-week club of in-depth game play and development will focus on level design and team building. The club will expand on what the students are currently learning in their digital art and design class. The students will have the opportunity to work independently and in teams to create playable in-game levels. Different games will be played and broken down to understand what makes them successful and then the student will apply what they learn into their own creation. The goal is to create a fun filled atmosphere for the children to play and learn how to create various types of video games. The cost for each participant is $150.00. Please fill out this form and turn it by February 7th. Parents will then receive an email from the business office no later than February 21st with directions on how to pay your fee via the Parent Portal on Veracross. For more information, please contact Baron Capers at [bcapers@southfield-school.org.](mailto:bcapers@southfield-school.org)

Sincerely,

Baron Capers
