Meet LOIS:
Laundry Operation Information System

LOIS

Plant data.
Anytime.
Anywhere.

Get data on any plant operation, at anytime, from anywhere.

Softrol's LOIS (Laundry Operation Information System) lets you access critical plant performance data at anytime, from anywhere.
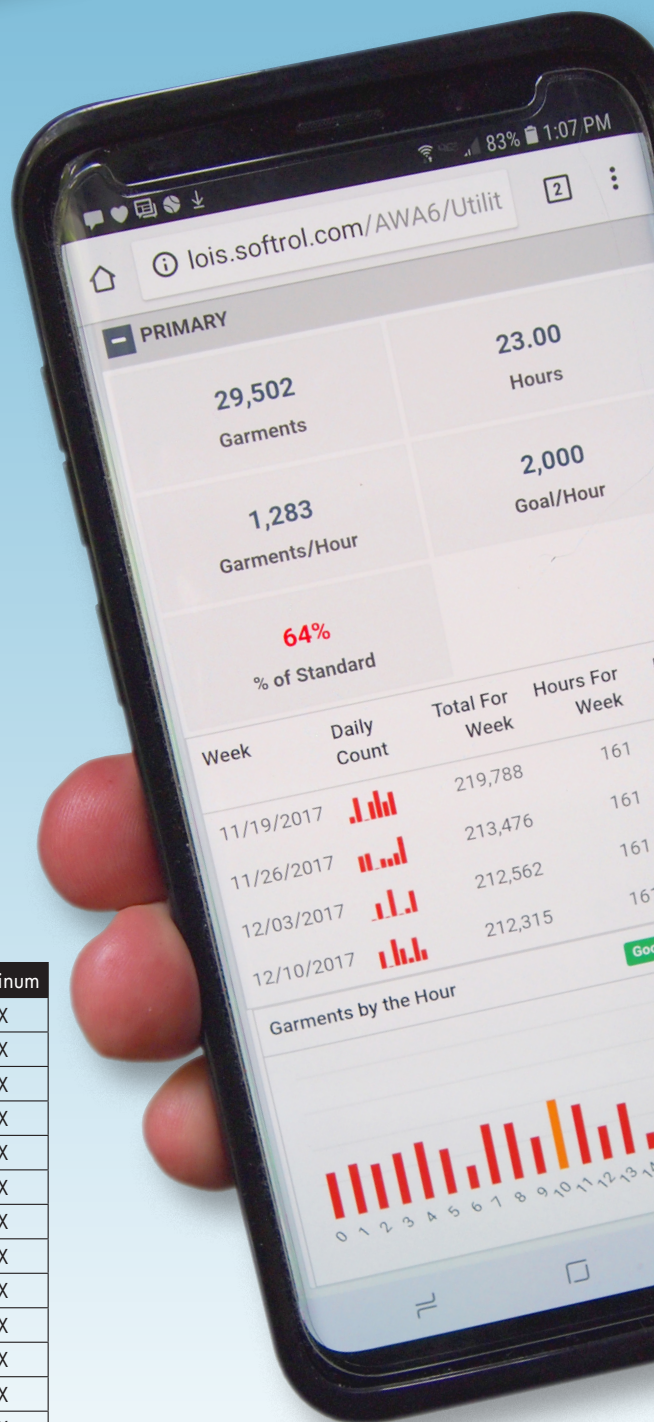

- Send real-time alerts directly to your email
- Access multiple sites from the same user account; not limited to a single plant
- Monitor critical plant functions and employee performance 24/7
- Accessible from smartphones, tablets and PCs using any browser
- Works seamlessly with any Softrol product
- Own the data of any Softrol plant operation or function
- Choose from the multiple levels of LOIS to meet your specific needs

Want a central reporting platform but don't have Softrol in your plant? No problem. Call Softrol Sales to learn how LOIS delivers.
