ScholarPack
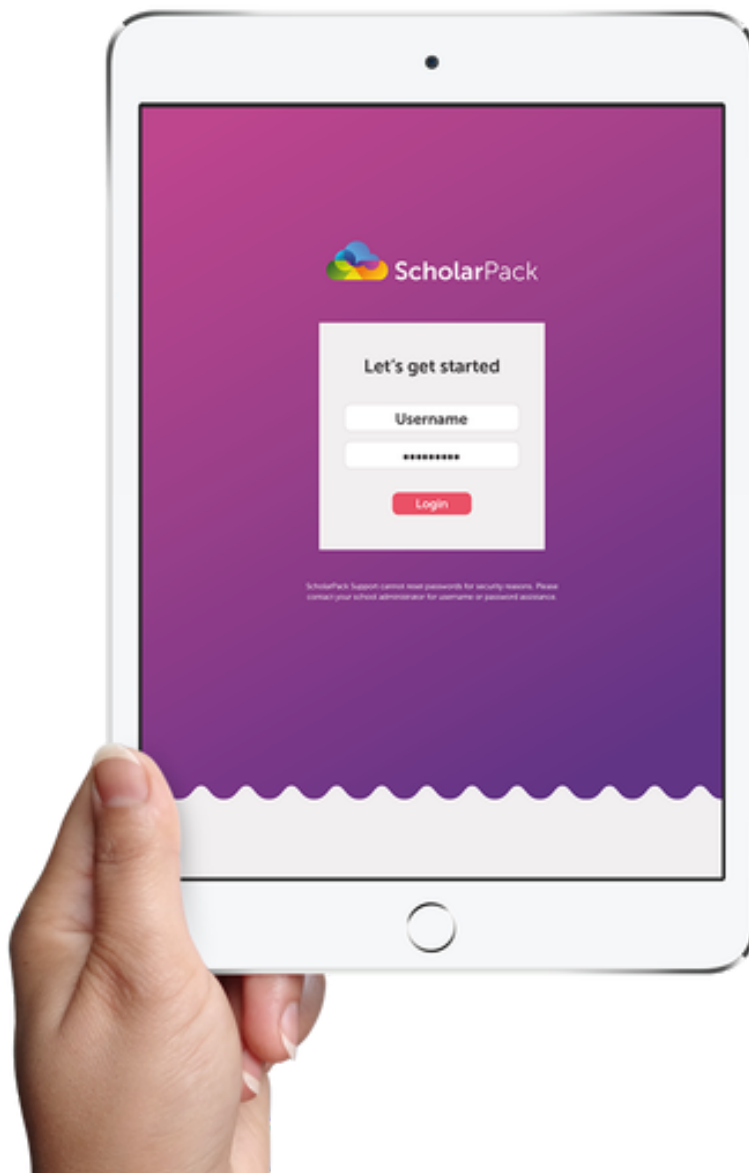

CREATING SMARTER SCHOOLS

ScholarPack is an easy-to-use, feature rich management system that allows schools to make sense of their data and see what's really going on. From attendance and assessments to accidents and incidents, ScholarPack helps schools record, manage and review everything that's going on. And the result? All round smarter schools.

ScholarPack

EASY AS 1, 2, 3

ScholarPack's system is so intuitive and easy-to-use, 99% of users feel fully confident after just 1 training day. Plus, they use feedback directly from schools to keep making it easier. What more could you want?

SAFE AND SECURE

They take your data security seriously. Not only is your data backed up 3 times a day, but they also use the latest encryption technology to keep it for your school's eyes only.

They also include tools to help make you GDPR compliant, right out of the box

BIG ON FEATURES SMALL ON PRICE

Here's a bombshell for you: For academies, ScholarPack is up to 55% cheaper than SIMS. Let that sink in. But cheaper doesn't mean they skimp on your package.

Our core system contains lots more modules as standard that most other providers charge extra for.

TRUST THE TRENDS

The trends don't lie. Over 350 schools switched to ScholarPack last year. That's more than to all the other systems put together. And they keep there existing schools happy too - they've got a market leading 99% retention rate.
