FOR IMMEDIATE RELEASE

EPI Completed ISO 9001 Quality System Certification

Vancouver, Canada (October 24, 2014) – EPI Environmental Technologies Inc. has successfully completed the necessary assessment, development and implementation of the quality management system on design and development of Totally Degradable Plastic Additives (TDPA$^{®}$). The quality certification was awarded by QAS International on 23rd October, 2014. EPI has the elements of good business practices and this updated certification will support and strengthen its continual demonstration and commitment to quality service and customer satisfaction.

If additional information is required, please feel free to contact Kenneth Lee, Quality Management Representative by email at kennethlee@epi-global.com or by telephone at +1 (604)738 6281.
