## OMI ENVIRONMENTAL SOLUTIONS

### IS WELL-SUITED TO RESPOND TO ANY SITUATION

After more than 40 years in oil spill response, Oil Mop, LLC recognized the need to rebrand the company to expand the limited perception of the services and products we offer. With a world-renowned reputation and as one of the oldest oil spill response companies in the world, we have assisted with the cleanup of some of the largest oil spills and disasters in our nation's history. Rebranding to OMI Environmental Solutions (OMIES) more appropriately conveys the breadth and depth of our services and products which are available.

With our continued expansion, we offer not only oil spill response, but we can respond with solutions for all of your environmental and industrial service needs. Our integrated oil spill, hazmat, industrial, standby rescue, waste management, disposal, transportation, environmental consulting, and training services, along with our extensive line of environmental & safety products, provide you with a safe, timely, turnkey solution every time.

At OMIES, we pride ourselves on the ability to respond with the products, equipment and qualified professionals required to provide a quick and effective response to any type of environmental problem, regardless of when or where it occurs. We focus on the people who service our customers, and have the experience and expertise second to none in all of our lines of business. OMIES professionals are committed to operating in a safe and efficient manner.

Because employees are our most important asset, safety is an integral component of our company's culture. Our management team believes that each employee has the responsibility to make the safety of his or her coworkers, our customers and the environment a top priority. This ongoing focus on safety through our C.A.R.E.S. program is fundamental to the efficient operation of our business. We will do everything reasonably possible to prevent injury or damage to people, property and the environment.

With well-staffed and response-ready facilities along the Gulf Coast, including Louisiana and Texas, and a comprehensive National Spill Response Program (NSRP), OMIES is strategically positioned and equipped to respond quickly and efficiently to any type of emergency regardless of where or when the next challenge arises.

With our fully-integrated managed emergency services approach, OMIES management and professional staffing provide the solution to our customers' environmental requirements. By working closely with our customers and becoming part of their team, we are able to fully understand the unique needs of each customer and tailor solutions to meet those needs. We help our customers prepare for unforeseen events, which in turn allows us to better manage incidents while they are in progress. At the completion of each project, we assist in the analysis and critique of the incident to provide even better service in the future.

**OMI Environmental Solutions strives to meet our customers' needs  
and exceed their expectations every day!**

## WHY CHOOSE OMI ENVIRONMENTAL SOLUTIONS

|                  |  |

| <b>QUALIFIED</b> | Outstanding team of managers and supervisors who have the experience and expertise in their fields |
| <b>RELIABLE</b>  | Consistent, dependable quality service   |
| <b>AVAILABLE</b> | Facilities across Louisiana and Texas, and nationally and internationally through NSRP 24/7/365    |

## OUR MISSION

*Our mission is to be the premier environmental services company in the Gulf South by providing outstanding service to businesses, industries and governmental agencies. We strive to be the first call to provide safe, effective solutions utilizing our experienced personnel, and state of the art equipment and products.*

***A reputation in oil spill response... A future in environmental solutions.***

## **HEALTH & SAFETY POLICY STATEMENT**

OMI Environmental Solutions (OMIES) believes that our employees are our most important asset. Safety is the essence of our management philosophy. OMIES' management believes that each employee has the responsibility to make the safety of our coworkers, the general public, and ourselves a basic concern. This objective is fundamental to the efficient operation of our business.

In the interest of protecting the company and its employees from losses due to accidents, it is the policy of OMIES to do everything reasonable to prevent injury and damage to property and the environment. Furthermore, OMIES will comply with all applicable local, state and federal regulations relative to employee safety and health.

The Director of Safety and Health, designated by the President of OMIES, will be responsible for the development, evaluation and implementation of OMIES' safety program. Safety is the responsibility of every employee in the company and every employee has the responsibility to prevent incidents and injuries by observing established working rules, by following the directions of supervisors, and by providing ideas on how our safety efforts might be further strengthened through our C.A.R.E.S. program.

## **EMPLOYEE SAFETY & TRAINING**

OMI Environmental Solutions (OMIES) requires that all employees receive proper training before they are put in any situation requiring specific knowledge or hazardous situations. We conduct in house training on an as needed basis and also utilize outside training in many areas. Our minimum requirements for OMIES employees include Safety Orientation, 40 hour HAZWOPER, Confined Space, Drug and Alcohol Program, and Industrial Safety.

Brief safety messages can be sent at any time via text to OMIES employees to get them thinking about safety. We want our employees to know that we care about their well-being and to inform them about what is going on that day specific to safety. The safety text is also used for severe weather information or any important safety messages such as near misses.

Safety This Week emails are sent so observations and good catches can be used throughout the company as something to learn from, not something to be put in a file cabinet and forgotten. We are also able to share statistical information on safety in those emails.

OMIES uses the DuPont STOP Safety Observation program for supervision and peer review. Employees are encouraged to identify proper safety practices as well as practices that need to be corrected. Data received is used to update training and identify areas that need improvement.

The OMIES C.A.R.E.S. program emphasizes that our employees are our most important asset.

## ommitment

OMIES will succeed with a commitment from all employees.

## wareness

Be aware of and mitigate hazards.

## esponsibility

Be accountable for your actions and mindful of your co-worker's actions.

## ducation

From Safety Training to daily instruction... never stop learning!

## afety

Be diligent and continuously strive to improve.

**Commitment:** Safety starts at the top with Management and involves all employees. OMIES will not be successful or safe without the commitment from everyone

**Awareness:** Hazard identification, mitigation/elimination, utilizing JSA's, SSHSP, etc. All information and equipment must be utilized to insure that all personnel are aware of the hazards and to take all necessary step to mitigate those hazards prior to work being started.

**Responsibility:** Being accountable for personal actions and mindful of your co-workers actions. Each and every employee needs to take personal responsibility for their actions all day long. If you accomplished your task – Great Job, if you made a mistake own up to it and learn from it.

**Education:** Formal Safety Training to Daily instruction and proactive safety communication is going to help keep you and your co-worker safe. Don't keep information to yourself. Teach your co-worker something new each day. Remember he may have to save you one day and the more he knows the safer you are.

**Safety:** Being diligent in our efforts and continuously striving to improve.

**Safety is all of us working together to complete our tasks and go home and be with our family in the same condition we arrived at work.**

- Spill Kits and Spill Containment

OMI Environmental Solutions (OMIES) has complete oil spill response capabilities utilizing response vessels up to 40 feet in length, vacuum trucks, portable vacuum systems, skimmers, self-propelled skimmer boats and more than 90,000 feet of containment boom.

Classified by the United States Coast Guard (USCG) as an Oil Spill Removal Organization (OSRO), OMIES' spill response services are available 24/7. With well-staffed and response-ready facilities along the Gulf Coast including Louisiana and Texas, and a comprehensive National Spill Response Program (NSRP), OMIES is strategically positioned and equipped to respond quickly and efficiently to any type of emergency or disaster response. Furthermore, OMIES can utilize its capabilities for AMPD coverage, decontamination, oil field cleanup or remediation services.

With a world-renowned reputation and as one of the oldest oil spill response companies in the world, OMI Environmental Solutions should be your first call!

**AREAS OF DISCIPLINE INCLUDE:**

- **AMPD Coverage**
- **Decontamination**
- **Disaster Response**
- **International Spill Response**
- **Mobile Command Center**
- **National Spill Response Program (NSRP)**
- **Oil Field Services**
- **Oil Spill Removal Organization (OSRO)**
- **Oil Spill Response**
- **Remediation**

OMI Environmental Solutions (OMIES) is dedicated to the highest level of professionalism, preparation and safety in providing unrivaled hazardous material emergency response services 24/7. OMIES personnel have specialized training and unique equipment capabilities to perform all types of hazardous and non-hazardous liquid transfers, bulk transfers and compressed gas transfers.

Our HazMat teams can respond to situations at fixed facilities, on land, water and underground via pipeline, and are specially trained in various situations involving transportation and railcars. Following fires and explosions, OMIES can also assess the site and mitigate hazards to make it safe for inspection. OMIES is also now licensed to perform asbestos, mold, and lead abatement to assist our customers.

The OMIES HazMat team has the expertise and ability to respond to most chemical spills and transfers, biological and abatement issues utilizing our solutions-oriented approach.

**AREAS OF DISCIPLINE INCLUDE:**

- **Asbestos, Mold & Lead Abatement**
- **Atmospheric Metering & Monitoring**
- **Biological Incident Response**
- **Chemical Incident Response**
- **Chemical (Dry & Bulk) Transfers**
- **Clandestine Drug Lab Response**
- **Compressed Gas Incident Response**
- **Fire & Flood Restoration**
- **Mobile Command Center**
- **National Spill Response Program (NSRP)**
- **NORM Survey Assessment & Cleaning**
- **Unknown Chemical Response**

OMI Environmental Solutions (OMIES) has more than 25 years of experience in providing safe and efficient tank cleaning services. OMIES' extensive experience covers all facets of tank cleaning for hot work (gas-free) or product changes, ancillary services and many types of products that include, but are not limited to:

- Acid / Caustic
- Asphalt / Coal Tar
- Catalyst
- Crude Oil Bottoms
- Diesel Fuel Oils
- Food Grade / Refined Products
- Lube Oils
- Paraffin
- Plastics / Polymers / Resins

Our teams are diversified and also perform onshore and offshore cleaning services for pipelines, railcars, mud tanks (oil-based and water-based), rigs, and a wide array of vessels and process equipment such as pressure vessels, separators, heat exchangers, storage tanks and cutting boxes.

OMIES has the ability and expertise, and knows the value of completing all projects safely, on time and within budget.

**AREAS OF DISCIPLINE INCLUDE:**

- **Chemical Cleaning**
- **Pipeline Cleaning**
- **Railcar Cleaning**
- **Tank Cleaning**
- **Vessel Cleaning**
  - **Barges**
  - **Ships**
  - **Tugs**

OMI Environmental Solutions (OMIES) offers complete standby rescue services 24/7 that fully meet regulations for OSHA 1910.146, NFPA 1006 for training and NFPA 1983 for equipment. OMIES' rescue personnel work closely with our customer's safety staff and managers to effectively identify confined spaces and hazards within our customer's facility that are oxygen deficient, toxic or combustible.

Standby rescue services at OMIES have been utilized in a variety of businesses and industries including oil and gas, petrochemical, construction, municipal public works, pipelines, power plants, telephone utilities, and water and waste water facilities. However, there is no limit to OMIES' ability to serve our customers.

Our teams are comprised of highly skilled, highly trained, experienced personnel who can assist and complement any confined space, high angle or marine standby rescue need in emergency or non-emergency situations.

#### **AREAS OF DISCIPLINE INCLUDE:**

- **Atmospheric Testing**
- **Breathing Air Bottle Watch**
- **Confined Space Attendant**
- **Confined Space Project Management, Planning, Supervision & Training**
- **Emergency Fire Watch**
- **High Angle/Technical Rescue**
- **Permit Writing**
- **Swift Water Rescue**

OMI Environmental Solutions (OMIES) provides turnkey waste management services for managing and transporting all hazardous or non-hazardous waste streams from non-bulk to bulk packaging. We can collect representative samples of the waste streams for submittal to accredited environmental laboratories for proper analysis/ waste characterization. Once the waste stream is characterized, OMIES can ship waste to a permitted facility as designated by our customer, or if the customer does not have a facility preference, we will suggest the facility which best suits the waste stream and the customer's best interest.

OMIES also has N.O.R.M. licenses in Louisiana and Texas, along with 40 hour trained Radiation Safety Officers (RSO) on staff. Our waste management division can also perform background confirmation and analytical testing for site remediation through the same accredited laboratories utilized for waste characterization.

OMIES is dedicated to offering the most cost effective, compliant and efficient methods of waste management.

**AREAS OF DISCIPLINE INCLUDE:**

- **Bio-Hazardous Waste Management**
- **Compressed Gas Cylinder Identification & Management**
- **Field Sampling Services**
- **Lab Pack Services**
- **Waste Characterization, Profiling, Disposal & Transportation**

OMI Environmental Solutions (OMIES) has a large, diversified fleet of trucks, trailers and equipment. With over 20 years of experience in environmental and waste transportation, OMIES has the knowledge and experience to service our customers' needs. OMIES truck and equipment operators are highly trained professionals. They undergo extensive training in DOT regulations, United States Coast Guard (USCG) regulations and they are all fully licensed to transport hazardous materials.

OMIES carefully monitors all eight U.S. Department of Transportation (DOT) categories including: unsafe driving; fatigued driving (hours of service); driver fitness; controlled substance/alcohol; vehicle maintenance; cargo related issues; crash indicators; and insurance. Also, OMIES inspects its trucks before and after each use to see potential issues before they become a problem. Dispatching is available 24/7.

OMIES believes that keeping up with existing and new regulations is a key ingredient for achieving performance excellence for our customers.

**AREAS OF DISCIPLINE INCLUDE:**

- **Air Movers**
- **Drum Truck Services**
- **Equipment Trailers**
- **Flatbed Trailers**
- **Frac Tank Rentals**
- **Roll Off Box Rental**
- **Roll Off Trailers**
- **Roll Off Trucks**
- **Vacuum Trailers**
- **Vacuum Trucks**

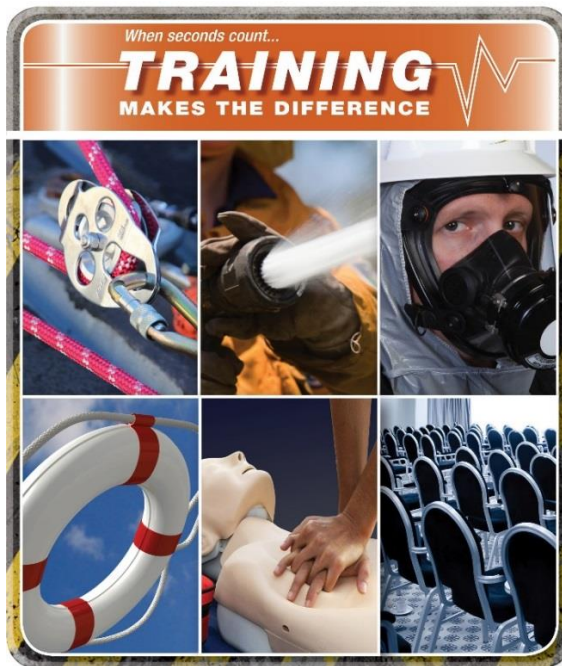

OMI Environmental Solutions (OMIES) has highly trained safety specialists to respond to incidents worldwide 24/7. OMIES provides on-site safety support and coordination for requirements that are regulatory-based such as OSHA / DOT or if there is a need for an Incident Command Safety Officer. Additionally, OMIES can assist our customers with compliance needs for OPA90 with PREP (Preparedness for Response Exercise Program), Drill Management Program, Table Top Drills, Deployment Exercises, and Plan Writing.

Environmental consulting services such as aerial surveillance, UAV services, hydrographic surveys, safety personnel staffing, Situation Monitoring and Response Tracking (SM&RT) are also among the many services which are available. Our SM&RT program can provide Incident Action Plans (IAP) from the first day of the incident, all the way through to final reports as well as track response resources in near real time. The synergy of our information service lines allows our customers to receive and document, in real time, information that will permit timely and cost effective action to mitigate the incident.

**AREAS OF DISCIPLINE INCLUDE:**

- **Aerial Surveillance / UAV Services**
- **International Operations**
- **National Spill Response Program (NSRP)**
- **Plan Writing – Compliance Auditing**
- **PREP Drill Management**
- **Safety Personnel Staffing**
- **SM&RT – Situation Monitoring & Resource Tracking**
- **Training – Online, On-site & Off-site**

OMI Environmental Solutions (OMIES) has solutions for all of our customers' training needs. OMIES' instructors are highly trained and experienced, and we offer a variety of training programs online, on-site and off-site. OMIES provides training to support emergency responders as well as a variety of industries such as maritime, oil and gas, industrial, construction and more.

We are always looking for new opportunities and new problems to solve that are specific to our customers' industry and environment. We can tailor any of our courses to meet our customers' specific needs. OMIES is dedicated to the protection of life and property by providing the highest quality training utilizing the safest state-of-the-art techniques, hands on training and educational programs available to emergency responders. OMIES flexible scheduling and competitive pricing allow our classes to be taught in order to best meet the time and budget constraints of our customers. Classes are developed to be site specific after a needs assessment is conducted.

#### **AREAS OF DISCIPLINE INCLUDE:**

- **OMIES Virtual University**
- **Confined Space & High Angle Rescue Training**
- **Hazardous Materials Training**
- **Industrial Firefighting & Incident Management System Training**
- **Maritime Training**
- **Medical Training**
- **Specialty Courses and Services**

For over 40 years, OMI Environmental Solutions (OMIES) has been a leading manufacturer and supplier of oil recovery equipment. Our skimmers have become a large part of many industries from the oil field to food processing, and can be found in diverse industries worldwide.

In 2007, we recognized the need of our customers to be able to purchase their environmental and safety products from one vendor, and developed the OMI Environmental & Safety Products (OMIESP) division. In order to make purchases more efficient for our customers, we have now launched our new e-commerce website with over 10,000 products from hundreds of manufacturers:

**WWW.OMIESP.COM**

OMIESP has one of the largest distribution warehouses (50,000 square feet) in the Gulf Coast area. Our commitment is to ensure that our customers' needs are met with quality products and outstanding service at an affordable price. We strive to have the products our customers need, when they need them.

**AREAS OF DISCIPLINE INCLUDE:**

- **Absorbents**
- **Cleaning and Janitorial Supplies**
- **Drums and Secondary Containment**
- **Industrial Supplies**
- **Oil Skimmers**
- **Safety Supplies and Equipment**
- **Spill Kits and Spill Containment**

## **CENTRAL SUPPLY**

OMIES Central Supply was designed to provide customers with a one-stop shop for all their needs on consumable products. It allows customers better control over the supplies being billed to them on any given job. Also, it manages inventory levels, stocking and delivery to the job site.

*A Central Supply Unit is a mobile safety supply store that can rapidly deploy to any disaster, event, spill or release site with stocked van trailers and logistics personnel. It provides safety supplies to all disaster responders in any company or agency.*

Implementation of OMIES Central Supply allows the customer to negotiate pricing with one supplier which ensures the timely delivery of supplies and eliminates a costly burden. Having one central supplier saves customers, time and money. Savings of 25-30% per job are possible because supplies are bought in bulk which allows for better pricing. Also, with central supply customers receive signed delivery/pickup tickets for every item billed ensuring that they only pay for what they use.

Whatever the event or natural disaster, OMIES Central Supply will rapidly set up logistics at any customer's location and begin managing their supply needs.
