Sub : Loading of good quality of coal in the month of May & June'2010.

Dear Sir,

We would like to inform you that due to proper supervision undertaken at the time of loading from SECL, Bilaspur & NCL, Singrauli, to see that coal of proper size was loaded and were free from any extraneous matter Suratgarh Super Thermal Power Station had not paid any demurrage for the rake received during the month of May & June-2010.

Also proper arranging/ monitoring of rakes so that no bunching of rake at STPS yard also helped to unload all the rakes within the free permissible time given by the Railways.

Let this be a bench mark of the type of service we expect from you.

Thanking you,

Yours faithfully,

  
(A.B. Agrawal)

Superintending Engineer (FM)  
STPS, RVUN, Suratgarh.
