About Oriental

Henan Oriental Construction Machinery Co., Ltd. is a state-designated manufacturer and exporter of Road and Building construction machineries since 1989, We are the manufacturer ,supplier&exporter of semi-automatic and full-automatic dry mortar mixing plants,large and medium size of concrete mixing plants,all kinds of concrete mixers and cement silos.

Diesel Engine Concrete Mixer (JZR)

It can be applied in large, medium-sized, and small component factories and roads, bridges, water conservancy, ports, etc. industrial or civil constructions. It can be used to mix the dry concrete, plastic concrete, fluidity concrete, lightweight aggregate concrete and various mortars. It is a high efficient machine with extensive applications.

The generating system's out power is 15KW, so it can also supply extra part of electricity power to other small devices, as concrete vibrators and lighting equipments, while it's keeping the mixer's operation.

In addition, the machine can also match the external power directly, achieves diesel-electric dual-use.

- ⊙ It is a middle capacity self-dumping mixer;
- ⊙ Heavy duty channel chassis provides durability and stronger support in the areas where you need it;
- ⊙ Jack legs give maximum stability throughout the mixing cycle;
- ⊙ Towable chassis with pneumatic tyred wheels;
- ⊙ Hopper lifting model: Hydraulic tipping hopper. Steel wire rope hoisting tipping hopper is available;
- ⊙ Power source: diesel engine. So it can also be used in areas without electricity supply.
