Bottom Image: Side-to-side filing.

White binders with red spines on the top shelf.

Dark brown binders with white spines on the middle shelf.

White boxes with black text and one orange box with white text on the bottom shelf. The text includes 'VESCOM' and 'bute'.

Freestor tambours and acoustic tambour units are our most popular range. The doors curl up inside the unit to create a compact operating area

Freestor acoustic tambours absorb distracting noise in the office

Freestor tambours. Internal components include lateral suspended shelves, pull out filing frame, drawers, pull out worksurface and pigeon holes

Freestor tambours have a range of internal components to tailor units to staff needs. Our storage surveys analyse the type, components and quantity each department requires, specifying units to save space and money.

freestor tambour

Freestor tambours have a compact footprint and large storage capacity. The doors curl up within the unit creating a small operating area and have our widest range of components to tailor the units to each staffs needs.

FEATURES & BENEFITS

- Easy grip inset handle with magnetic aluminium slam rail.
- Doors curl up into the unit giving full access to the unit.
- Fully welded carcass for exceptional rigidity and stiffness with no joins in the carcass to front or side elevations.
- Floor levelling.
- 15mm steel top or 25mm MFC top with 2mm ABS edging.
- 2-point locking Lowe and Fletcher lock type 5689-2.
- 12.7mm slot centres to fit adjustable internal components.
- Components include plain shelf, slotted shelf, pigeon hole, lateral plain shelf with fixed suspension rails, lateral suspended filing rails, coat rail with shelf, pull out shelf, pull out filing frame with 2 adjustable rails, long rail A4 suspended rails, single drawer, 8" or 11" system drawers (see back of brochure for details).
- Optional acoustic perforated shutters allowing acoustic waves to enter and be absorbed with sound absorption EN ISO 11654:1997, acoustic absorption class C, NRC value 0.8, M3 fire rating.
- Extra deep tambour wardrobe with coat rail, shelf and ventilated back.

SPECIFICATION

- Width options include 800mm, 825mm or 1000mm
- Height options include 695mm, 715mm, 720mm, 740mm, 1017mm, 1090mm, 1110mm, 1200mm, 1322mm, 1490mm, 1677mm or 2007mm
- Acoustic tambours are available in 1110mm, 1200mm, 1322mm and 2007mm
- Depth: 475mm as standard. Wardrobe 600mm
- 94% recyclable (based on a standard tambour)

Freestor tambour wardrobe with ventilated back.

FREESTOR LATERAL COMPONENTS

Plain Shelf
Ideal for storing Lever Arch Files, boxes and miscellaneous items.

Slotted Shelf
For use with dividers, a slotted shelf is useful for items that lack rigidity such as magazines, shelf files and wallets.

Pigeon Hole Shelf
Suitable for traditional pigeon holes for internal mail or storing A4 and A5 forms or literature.

Lateral Plain Shelf with Fixed Rail
This shelf stores items like a traditional plain shelf, but can also store suspension files on the rail under the shelf, providing greater flexibility.

Lateral Suspended Filing Rails
For fixed side-to-side suspension files.

Front-to-Back Filing
Suitable for drawers only, allows for suspending files front-to-back in 2 rows.

Side-to-Side Filing
Suitable for drawers only, allows for suspending files side-to-side.

FREESTOR TAMBOUR COMPONENTS

Plain Shelf
Ideal for storing Lever Arch Files, boxes and miscellaneous items.

Slotted Shelf
For use with dividers, a slotted shelf is useful for items that lack rigidity such as magazines, shelf files and wallets.

Pigeon Hole Shelf
Suitable for traditional pigeon holes for internal mail or storing A4 and A5 forms or literature.

Lateral Plain Shelf with Fixed Rail
This shelf stores items like a traditional plain shelf, but can also store suspension files on the rail under the shelf, providing greater flexibility.

Pull-Out Filing Frame
This filing frame holds 2 rows of front to back suspended filing and pulls out of the unit for ease of use.

Lateral Suspended Filing Rails
For fixed side-to-side suspension files.

System Drawers
Pull-out drawers with optional dividers for storing general stationery items, IT equipment, chargers and cables.

Long Rail
Creates side-to-side A4 suspended filing on a pull out filing frame.

Pull-Out Shelf
A pull-out shelf to allow staff to reference and quickly edit files whilst at the unit.

let's get a little technical

RANGE

Lateral storage: Freestor Hinged Door, Freestor Side Filer and Freestor Combination Units.

Tambour storage: Freestor Tambour and Freestor Acoustic Tambour units.

Lockers: Freestor Accent Lockers.

CARCASS & CONSTRUCTION

4 stage treatment process steel. Fully welded for exceptional rigidity and stiffness. Side panels are non load bearing and are fixed to top, back and base. No joins in the carcass to front or side elevations.

Lockers: Welded carcass with riveted back. Side panels have ladder track stiffeners for strength and to allow additional accessories to be fitted.

Lateral Units: Fully welded hinged doors in 18 gauge steel with stiffening rails. 3 hinged per side, designed for 120 degree opening ensuring clear access space for users.

CARCASS & CONSTRUCTION

Lateral Units: 18 gauge steel drawers with smooth gooseneck handles for easy operation. Full extension runners providing a 90% opening. Lockable. 45kg loading.

Tambour Shutter: Co extruded plastic slats with a smooth exterior surface. Run smoothly in an inset one piece injection moulded track fitted at the base and top of the cabinet.

WORKSURFACES

Selected Freestor units are available with a 25mm MFC top to compliment desking ranges. All our MFC's are FSC®- C015991 certified. Our materials meet British standard 476 class 1 surface spread of flame, and E1 European standards on Formaldehyde emissions. Bespoke cladding can also be supplied, please contact a Flexiform representative on 01274 706206 for more information.

COMPONENTS

Freestor Lateral Units are available with a plain shelf, slotted shelf, pigeon holes, lateral filing rail, lateral suspended filing rail with plain shelf, front-to-back filing rail and side-to-side filing rail.

Freestor Tambour Units are available with a plain shelf, slotted shelf, pigeon holes, lateral filing rail, lateral suspended filing rail with plain shelf, pull-out filing frame, pull-out shelf, pull-out drawer and a long rail to adapt a pull-out filing frame to file side-to-side

Freestor Lockers are available with an optional removable shelf and removable tray.

DIMENSIONS

Freestor storage is 475mm deep throughout the range. Each unit is available as 800mm and 1000mm with selected heights available as 825mm to compliment Flexiform desking ranges, for example, to fit on the end of a back-to-back bench desk. Our Freestor range is available from 695mm high to 2007mm high, please see each ranges specification guide for more details.

AFTERCARE

Due to their resistant surfaces, our worktops do not require any special maintenance. For light soiling, clean with a paper towel, soft clean cloth (dry/damp) or sponge. If using a damp cloth, dry the surface with an absorbent paper towel or microfiber cloth. For normal soiling, clean with warm water, a clean rag, microfiber cloth, soft sponge or soft brush. Use non-abrasive domestic cleaners, remove all traces of cleaning agent with fresh water, and dry the surface with an absorbent cloth or paper towel.

RECYCLABILITY & WARRANTY

Freestor Lateral Storage is 98% recyclable. Freestor Tambour Storage is 94% recyclable. The Freestor range is supplied with a 10 year warranty.
