

EQUISTRO®

PASSION & PERFORMANCE

Myo Power

Support Healthy Muscular Performance & Recovery

Myo Power is a supplement for horses designed to help support a healthy muscular state. Myo Power contains the Branch Chain Amino Acids; L-Leucine, L-Isoleucine and L-Valine. It is recommended for young and athletic horses where a healthy muscular state is important and for all horses to aid in the maintenance of muscle mass.

Myo Power

Key Points

- ▶ Highly digestible short peptides from protein sources
- ▶ Elevated L-Leucine concentration for driving muscle recovery
- ▶ Molasses to boost protein synthesis

Active Ingredients (per scoop)
 Calcium Caseinate4.5g
 L-Leucine 1.9g
 Isoleucine0.2g
 Valine0.38g

Inactive Ingredients
 Alfalfa (high temperature dried),
 Apple Flavor, Apple Pulp (dried),
 Barley Flour, Dried Molasses,
 Pea Protein, Stevia Extract,
 Wheat Middlings

 Each scoop included with MYO POWER approximately holds 25 grams

estimated a 5 week supply for maintenance dosage

Size	2300g (2.3kg)
SKU	445097

Horses over 500kg	75g/day for 3 weeks, then 50g/day
Foals/Ponies under 500kg	50g/day for 3 weeks, then 25g/day

27% Pea Protein + Calcium Caseinate

L-Leucine, Isoleucine & Valine
 Small peptides absorbed by the foregut

L-Leucine

Essential amino acid that is used in the biosynthesis of proteins

Molasses

Maximization of amino acid ingestion effects

EQUISTRO® has been a trusted brand of equine products available throughout Europe for over 30 years and are used by top riders in the world and the USA.
