

ParkLeisure 

Here at **Park Leisure & Sport**, we are passionate about creating experiences for people of all generations. We know this is a crucial part of both childhood and parenthood, and is important in developing our understanding of the world and who we are.

Play teaches us some of life's most important lessons. It is where we have the chance to learn the freedom of expression, to safely assess risk and to develop as people. Play is where friendships are built, emotions learnt and can have a profound influence for the rest of our lives.

One of the greatest oppositions of outdoor play is the influence of modern technology. This is affecting all ages, whether it is the child who chooses to sit indoors playing video games or the parent who can't switch off and engage with their children. Our challenge is to create stimulating and immersive play areas for all ages and abilities.

Play is for everyone - not just children. It is important to create multi-generational spaces where the whole family can not only be together but interact in every aspect of the space.

Our experienced design team achieves this by creating user-centred play spaces, built on the needs of the community and fed by active consultation from all generations as well as our comprehensive catalogue of industry leading products. Only then can a truly accessible, multi-generational and encompassing play space be created.

“We do not stop playing because we grow old, we grow old because we stop playing!”

George Bernard Shaw

Park Leisure & Sport is proud to be a British manufacturer. Our production capability enables us to create bespoke products for any market. Working in partnership with established and certified play inspectors, we have been able to provide some truly unique and inspiring play items.

Understanding that every customer's requirements are different, we strive to deliver personalised designs to suit any area. Our design and agile manufacturing processes enable us to bring bespoke products to life efficiently and at a high quality to suit any customer need.

Park Leisure has spread its roots across the globe and are proud to have play and sports installations across Europe, North America, Australia, Israel as well as Hawaii. Our global network is providing access to our ranges along with local expertise and a design guidance for customers around the world.

Safety Standards may differ from region to region, however our mission statement of "**Play is for everyone**" remains true whoever, or wherever you are. All products come certified to EN1176 but can be adapted to meet other play equipment standards.

RESEARCHING

disability, learning difficulties and developmental impairments allows us to create products and play solutions that bring inclusivity into play areas.

FEATURE ITEM: KIDABOUT

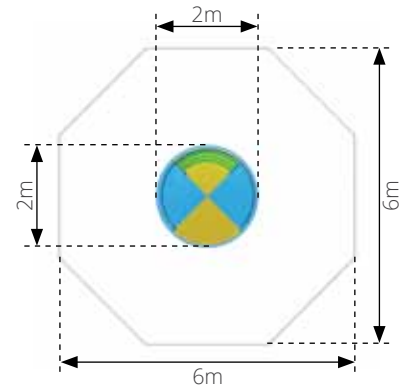

ACCESSIBLE

KIDABOUT

2102
 Age: 2+ Years
 Height: 0.85m
 Free Fall Height: 0.43m
 Area: 24.86m²
 Edge Length: 18.85m

The Kidabout is the flagship product of the Park Leisure play range, known for its durability and easy use.

Being flush mounted allows access for everyone, meaning it is an inviting unit that offers equal play for all ages and abilities.

Simplistic but effective in design, there is no need for specialist equipment or assistance to use the roundabout.

BESPOKE OPTIONS

Customise your Kidabout by changing the colours of the handrails, base plates and rings. The HDPE seat back rest can be decorated with logos or childrens designs.

CASE STUDY: ST NICHOLAS' SCHOOL

Project Background

Park Leisure work closely with Inclusive Play; they are entirely dedicated to understanding the needs of children with disabilities and special needs. Together we create play spaces for all children to enjoy. The products designed by Inclusive Play are created by truly understanding a wide scope of disabilities to ensure the barriers to play are broken down. St Nicholas' School is a special school for pupils ages 4-19 with severe, profound and complex learning needs. The school works closely with Canterbury College to provide a wide range of opportunities for pupils from both establishments. St Nicholas' wanted to create a play area that would have play experiences to suit the needs of the children at each stage of their development and cater for the students across both schools.

Our Solution

Park Leisure designers spent time with the client to understand the pupils and their varying needs. This resulted in designing a completely bespoke inclusive multiplay unit, as there are few accessible multiplay units available on the market that offer a wide variety of play opportunities for children with complex needs.

The designers developed the product using the principles of the 6 senses of Inclusive Play. The next stage meant engaging the students who were invited down to the factory to trial some of the products and brainstorm ideas. The students had an input into the final design, from choosing the colours to selecting the textures on the inclined sections, to ensure they would all get the most out of the unit and add their own personal touches.

We are very humbled to be part of the first ever multiplay unit develop with Inclusive Play. The children loved their consultation day at the factory, they felt very important being able to add personal elements to the end product. The detail is brilliant, the designers thought of absolutely everything to maximise the play value. The ground level trampolines were an absolute hit with the teachers too!"

Headteacher at St Nicholas' School

CASE STUDY: DAYS GREEN PLAY AREA, HEADCORN

Project Background

Headcorn Parish Council were looking to revamp their old play area in Days Green with a combination of steel and timber equipment.

With this opportunity to create a fresh play area, they were keen on integrating plenty of inclusivity and play features for children of all ages.

Our Solution

We split the play area into 4 main zones. At the far end, shaded by a mural wall was an area purely focused on inclusive play. This then leads into a multiplay area that is suitable for younger children and then progresses onto more challenging equipment. Outside the fenced area is a timber imaginative play zone which also features a story telling area.

The park contained an existing memorial play car which was donated by local parents. Unfortunately it had seen better days, however we were able to restore it to new condition so the much loved memorial could continue to be used.

Thank you very much for all the time and effort you have put into this. Your guidance throughout the project has been invaluable.

The story telling area is sure to be a real hit and was truly inspired. The play equipment not only looks good but is well crafted.

One thing is for sure I would have no hesitation in recommending Park Leisure & Sport to other bodies who are thinking of installing new play areas/equipment.

Caroline Carmichael, Clerk

CASE STUDY: STRENSALL PLAY AREA

Project Background

Strensall with Towthorpe Parish Council were looking to give their existing play area a complete revamp with new surfacing and play equipment. The previous site was filled with timber equipment which youths set fire to a lot. They had a ROSPA report come through and realised enough was enough and they needed to get a new playground sorted for the community.

Set their targets for the play area to be finished before the end of term, ahead of the summer holidays, which was happily achieved. No issues on site during installation, and great communication throughout the whole process.

Our Solution

We designed an exciting play area with a combination of multiplay units, moving items and trim trail that allow children to interact and play together. We adapted some of the play equipment to be in more natural colours and have wildlife graphics panels to keep in tune with the customer's vision.

A wildlife themed Kidabout was installed onto rubber mulch with a path leading up to it making it fully accessible for wheelchairs. There are 2 children in the community that need the help of wheelchairs and are in love with the wildlife Kidabout.

The only issue that we have is that the grass cutter can't come and mow the grass, as every time he arrives the site is filled with children playing!

Susan Nunn, Strensall with Towthorpe Parish Council

COLOUR RANGES

One of the major benefits of having our own factory and paint booth is that we can stylise your play equipment to your individual location. Whether you want your equipment to be bright and colourful or more natural colours that blend in with the environment we can provide you with a full spectrum of colour choices to pick from.

Look out for the colour palette symbol throughout our brochure to see which items are customisable pieces of equipment.

GUARANTEES

All Park Leisure Play and Sports equipment is engineered and made exclusively in the UK in our own factory. The equipment is the most robust in the industry and for this reason it carries the longest guarantees.

20 Year Steel Guarantee

against metalwork structural failure

10 Year Parts Guarantee

Park Leisure is unique in the fact that we give an ongoing supply guarantee of 10 years. This means that your play areas will always have spare parts available

7 Year UV Paintwork Protection

against corrosion

5 Year Line Markings Guarantee

on thermo-plastic markings

2 Year Guarantee

on rope structures, astroturf and installation

See terms and conditions for full details. This guarantee is given subject to the following:

Normal wear or accidental/intentional damage resulting from use of the equipment.

All equipment supplied by the customer or original, specific orders imposed by the customer.

Deterioration of the equipment due to failure to comply with the sellers servicing, maintenance and installation specifications.

All compensation for loss of use if an item of equipment is temporarily unusable.

Complete your play facility with multi-sport and wheeled sports equipment
