

Skyline Tube System

The Ultimate Graphic Carrier

exhibiting solutions

Sleek in Look, Unlimited in Application Skyline Tube System

Your Vision Becomes Reality!

Tube System is a designer's dream. Modular components and vibrant fabric graphics offer unlimited design options for brand messaging and product merchandising.

Make a Powerful Impression

Skyline Genuine Graphics command attention! From massive fabric structures, banners and ceilings to simple kiosk signage, we help you stand out from the clutter.

Packs Small to Save Money

Get all the impact without unrealistic operating costs. Skyline products pack down efficiently to maximize your event ROI.

Skyline Tube system works seamlessly with other Skyline systems to provide a complete - and effective - exhibit solution.

Modular exhibits efficiently reconfigure to fit smaller booth spaces, giving you flexibility.

Save on operating costs like shipping, drayage and storage! Excluding counters, this island exhibit fits in just 3 crates.

Skyline Fabric Graphics – the Industry’s Hottest Look
Get mass and ‘pop’ without bulk or weight. Durable fabric graphics
– both sheer and opaque – are exciting, inviting and ultra lightweight.

Impact and Flexibility Slotted Tube

Slotted Tube works seamlessly with standard Tube System components and gives you more design options. It's perfect for island exhibitors as well as in-line exhibitors requiring a structural solution. Its sleek profile allows your graphic message to stand out.

Slotted Tube Features:

1 Stylish Components

Slots run the length of the tube providing built-in wire management and infinite connection positions for components, graphics and accessories.

2 Fabric Murals

Rich and colorful fabric graphics work perfectly with Slotted Tube and are easy to update and change.

3 Custom Profile Graphics

Attract attention with 3D graphics and signs custom produced from a variety of materials.

4 Layered Graphics

Give your marketing message interest and depth. Custom, cable-mounted graphics provide a unique look and change out with ease to target specific audiences.

5 Presentation Equipment

Engage and inform. Flat screens can be mounted at any height to fit your needs.

6 Integral Counters

Counters are great for displaying products or creating an interactive workstation.

Versatile Tube System allows you to create an effective 10' solution by using portions of your larger exhibit. You can also add components over time to create a larger presence as you grow.

Design Outside the Box!

Tube System allows you to build with sweeping curves and large circular graphics for a look that's distinct and inviting. Go beyond square architecture and create an exhibit your audience will remember.

Slotted Tube Accessories

Graphics and Lighting

Highlight your message. Graphic panels and lights easily attach on any of four sides at any height.

Flat Screen Mount

Presentations effectively communicate your brand or products. Integrated wire management provides a streamlined look.

Product Display Shelving

Stylish Plexiglas or wood shelves showcase products. Multiple shelves can be used on any side.

Skyline Tube System

Tube System supports a variety of signage including 3D graphics.

Dynamic fabric graphics define space and are a perfect backdrop for presentations.

Stand-alone kiosks support cable-mounted graphics or display products.

Skyline Tube System with fabric graphics allow you to build tall bringing your name into view from afar and leaving valuable floor space open for business.

Patents pending.
