

## NutriFusion®

### Slow release carbon-fusion fertilisers

Creating a nutritionally balanced soil and root zone brings superior performance and environmental benefits to your sports turf. **NutriFusion®** is a multi-nutrient fertiliser with a stable and slow release source of nitrogen. The ingredients work together to maximise nutrient availability and aeration and support the growing plant. In addition, the stimulation of the microbial communities in the rootzone brings the added benefits of improved soil structure, deeper rooting and increased nutrient uptake.

#### How does it work?

- **NutriFusion®**'s unique nitrogen storage system ensures the slow release of nitrogen as the plant demands, in a pattern of up to 80 days.
- Carbon molecules and electrolytes complex with mineral nutrients to condition the soil and feed both the plant and soil microbes.

#### Why use NutriFusion®?

- Complete macro and micronutrient package
- Promotes even and healthy growth habit
- Stable and slow release sources of nitrogen
- Stimulates microbial activity to increase nutrient availability and fertiliser efficiency

#### Where/when

- Suitable for use on all types of sports and amenity turfgrass
- For all year round maintenance

#### Products & Application Rates

	<b>NutriFusion® Granular</b>	<b>NutriFusion® Liquid</b>
<b>Contains:</b>	12% N : 3.5% P <sub>2</sub> O <sub>5</sub> : 18% K <sub>2</sub> O + 1.2% Mg, Calcium and Carbon derived from Humic Acid	9.3% N : 0% P <sub>2</sub> O <sub>5</sub> : 8.1% K <sub>2</sub> O +trace elements, seaweed and Carbon derived from Humic Acid
<b>Rates &amp; Timings:</b>	Apply @ 250-500kg/ha (25-50g/m <sup>2</sup> ). Repeat ever 4-8 weeks.	Apply @ 20-80l/ha (2-8ml/m <sup>2</sup> ). Repeat every 3-6 weeks. Recommended for application at water rates of 200-300l/ha.
<b>Pack Size:</b>	25Kg	10L, 1000L
<b>Method:</b>	Apply with accurate, calibrated fertiliser spreader.	Always use a fully calibrated sprayer at the recommended dosage.

**YOUR LOCAL DISTRIBUTOR**

*This product is physically compatible with a wide range of tank-mix partners. Check compatibility prior to adding to the spray tank. Consult your local advisor or Soil Harmony for specific recommendations. Efficacy may be effected by plant health, growth stage and weather conditions. Soil Harmony accepts no liability for damage to treated turf.*
