Be Environmentally Compliant

MonitorPro gives peace of mind that you are fully compliant with environmental legislation. Configure early warning systems with suggested actions in all jurisdictions in case of permit breaches.

Automate Your Data Collection

Drastically reduce the scope for human error, and improve data quality by automating and scheduling your environmental data imports into a single point of entry. Real-time validation alerts of data errors or compliance controls.

Professional Data Visuals & Dashboards

It's difficult to tell stories through numbers, so drive your environmental performance with MonitorPro's compelling and interactive graphical interface. Plan, manage and report strategic data easily and effortlessly.

Highly Configurable Solution

A powerful environmental data management system with incredible flexibility and scalability. This highly configurable solution allows you to shape MonitorPro to meet your specific industry and organisational needs.

Software as a Service (SaaS)

A hassle free option to access MonitorPro through the internet at any time. The software is automatically updated which eliminates the need for costly internal hosting and administration. Locally hosted solutions are also available.

Key Account Management

Your organisation will be assigned a MonitorPro professional account manager to provide a seamless implementation. Thereafter their continual support and expertise will be available to help you maximise your return on investment.

“After reviewing the market, we invested in MonitorPro due to the data automation engines, the multi-lingual browser interface and ease of use. We're well supported via our account manager.”
