

TENTERDEN BUILDING & RESTORATION
SWIMMING POOLS

COOL DOWN, TONE UP AND TEACH THE KIDS TO SWIM IN YOUR OWN POOL

Pools are no longer an expensive luxury only for the very top end of the market. New techniques and materials mean that a simple outdoor pool can be built for a very reasonable cost (lower right).

At TB&R we can construct everything from the finest high-end indoor pools with every conceivable extra and accessory right down to a budget garden version. Anyone can fit a pool but the quality of finish is what makes TB&R pool's special.

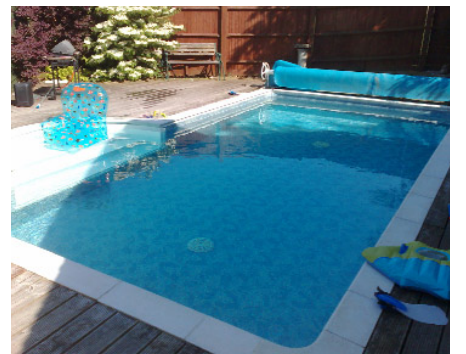

As always we work with our clients to provide them with exactly what they want and make sure the details are absolutely right. We can provide accompanying

changing rooms, saunas, jacuzzis, solariums & plant room to house the pool equipment and chemicals. As a family firm we are acutely aware of the need to provide a safe environment to ensure your pool experience is as relaxing as possible.

We also specialise in the installation of Endless Pools (above right), which make the most of available space while still allowing you to exercise effectively by swimming against a current.

We have passed the company's rigorous standards of craftsmanship and are an Endless Pools approved installer.
