

Wedding Information

SQUIRES ESTATE

The estate offers a number of options, with the most popular being our function deck situated on the edge of the Caribbean. Its spectacular sunsets out across the bay make for most amazing backdrop to the dream wedding you always imagined. There are also numerous areas around the gardens which are well suited for smaller groups. Whatever your needs, we will work together with you and create a solution to make your day something incredibly special.

The most recent addition to the property is a magnificent ocean front function deck. This is a stunning area to host an event, with the convenience of both male and female bathrooms located below it. It is a requirement when hiring the deck for a function to also rent the houses adjacent and behind the deck.

The lush green gardens at Squires Estate have long been a favourite amongst wedding couples, and there are a number of options depending on the size of the party and your imagination.

Wedding Information

ACCOMMODATION

The property boasts 25 en-suite bedrooms. These range from 1 room cottages to large 4 bedroom homes. The houses operate as vacation rentals, giving you the flexibility to enjoy the island in the privacy of what is your own home for the duration of your visit, but with the convenience of having the whole party close together. Apart from 2 cottages, these houses include fully equipped kitchens, and all have air-conditioning, cable television and Wi-Fi.

As the properties are made up of individual houses, there is no requirement to rent all properties, and we can tailor a package to suit the needs and guest numbers to your specific requirements on request.

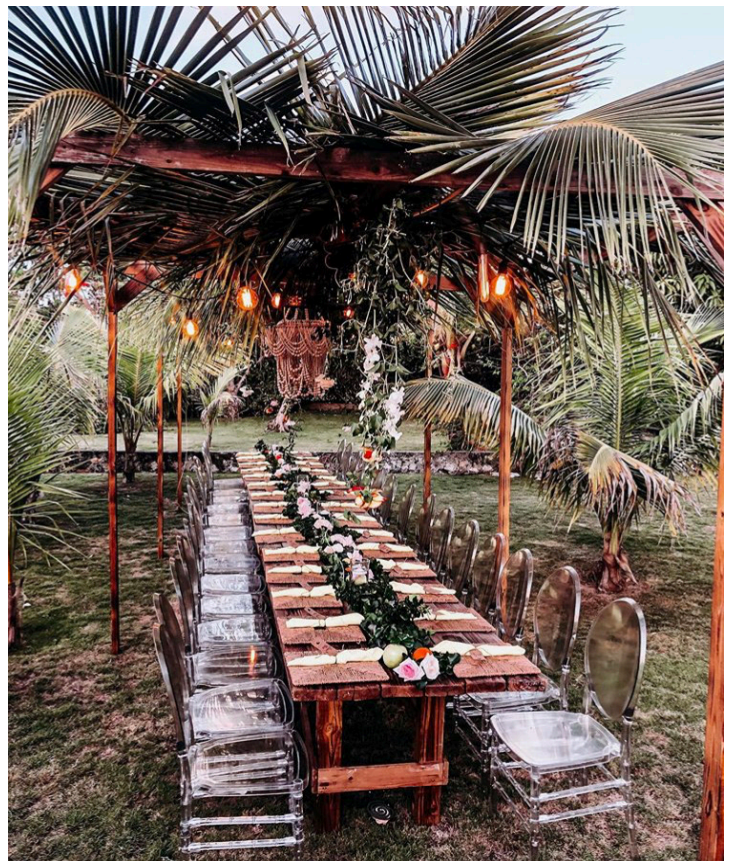

“We stayed at Squires with a group of nearly 30 people over Labor Day. The purpose of the trip was our small wedding, and all the guests said it was the best they’ve ever been to. (Success!) That was thanks in large part to the gorgeous property, stunning colonial houses with even more stunning renovations, and the amazing location of the estate.”
