

You're Home with Hurst

Make a great first impression with a beautifully designed and high quality composite door. The door of choice amongst homeowners worldwide for 25 years. The Composite Collection provides you with an entrance door that not only looks exquisite but is also durable and robust. With such a wide choice of door styles, glazing designs, colours and hardware options to choose from, you're sure to find the perfect door for your home.

Composite Door Benefits

Our composite door is a breakthrough in door technology, combining proven levels of high security with stunning aesthetics. Quite simply, it's a door with superior strength and style.

Exceptionally Durable

The high impact Glass Reinforced Polyester (GRP) skin offers exceptional durability and will maintain its appearance against everyday knocks and scratches. Unlike other doors, they don't warp, split or twist.

Simply Stunning

To complement your home, every door is designed with symmetry and balance in mind. Using modern technology, the detailed embossed woodgrain finish, developed from oak tree grain, creates a beautifully authentic appearance.

Low Maintenance

Thanks to its water-resistant coating, there is no need to repaint or varnish your door; a quick and easy wipe with a damp and dust-free cloth will keep your door looking brand new. For further details see page 46.

Safe and Secure

Holding the highest accreditations for quality and security, you can have peace of mind that the door construction – with its rigid polymer subframe, high density CFC-free polyurethane foam core, integral security board and high impact GRP skin – will keep your property safe and secure.

High Security Locking Systems

All our composite doors are enhanced with an insurance approved high security multi-point locking system as standard, ensuring your family and home are fully protected. See page 43 for further details.

Manufactured to the Highest Standards

Hurst doors are CE marked and fully accredited to meet the criteria of BS:EN 6375, PAS 24:2016 for weather and security performance certification, Q-mark for enhanced security as well as Secured by Design, a police initiative backed by the Home Office Crime Prevention Unit.

The above accreditations have been awarded to Hurst Plastics Ltd (Hurst Doors).

Door Collections

Our featured Classic, Cottage and Contemporary Bohemia collections all offer something unique and are available in a variety of colours and styles to suit any home.

Composite Half Moon

This door offers one or three glazed panels, depending on your needs. Suiting period and modern properties alike, this classic design can be given a modern-day twist by combining it with contemporary glass to make an inviting entrance door.

Composite Six

Whether featured as a solid door or teamed with either a traditional or modern glass, this elegant, ageless classic will add a touch of style and sophistication to any home. Choose from two glazed panels to provide more privacy, or four glazed panels which will flood your hallway with natural light.

Choose Your Colour

Whether you are looking to make a statement by making your front door bold and bright or you would prefer something more traditional and demure to go with the style of your home, our Premium Sprayed Colour Service provides a vast array of colours to complement your glass designs and hardware options.

In addition, the outer frame of the door can be supplied in white or can be colour matched to your door or, if you really want your door to stand out, why not choose an alternative colour.

Choose from the extensive RAL range of colours and make your door truly unique.

What's Your Inspiration?

If you want your door to be unique but you're unsure what colour to choose, why not take inspiration from the things you love and that surround you.

It could be the new colour you've painted the hallway or you could be inspired by the colours of your favourite football team, treasured car, cherished coat or even a beloved pet.

Whatever your preference, we have the perfect colour for your door!

Safe and Secure

The majority of break-ins are through the front door. Our doors are able to meet the requirements of Secured by Design and feature the best locking systems to keep your home and family fully protected.

Secured by Design

Secured by Design is a flagship UK police initiative supporting the use of 'designing out crime' through the use of high-quality innovative products and processes.

In order to achieve Secured by Design status, the Hurst composite door collection has been rigorously tested and adheres to the organisation's strict standards.

Statistics show that when it comes to burglaries in the UK, front doors are the main source of access. Therefore, they need to be made as secure as possible.

Our Secured by Design upgrade meets the national standard for safer homes and is also recognised by most insurance companies.

The Secured by Design standard upgrade includes:

- A security cowl if a letterplate is required
- A safety chain
- A spyhole
- Laminated glass if the door is glazed

- Letterplate
- Lever / Lever Handle
- Heritage
- Swan
- Lever / Pad Handle
- Decorative Door Knob
- Bullring Knocker
- Escutcheon
(With or without finger pull)

Door Maintenance

**Keep your door
looking great
for longer**

Your new composite door is extremely low maintenance and is very easy to clean. How often will depend on where you live. For instance, a coastal or industrialised location, or near a busy road, may mean cleaning is required a little more often.

We recommend the following to help you get the very best from your composite door:

Cleaning your door

- Wash the door and door frame with warm soapy water and a soft, lint-free cloth to remove grime and atmospheric deposits.
- Never use a pressure washer or steam cleaner.
- Stubborn marks on the door frame may need to be tackled with a specialised PVC cleaner but please ensure you read the cleaning guidelines carefully so as to ensure suitability.
- Under no circumstances should you use any solvent based or abrasive cleaners and avoid the use of any adhesives or tack for temporary fixing i.e. For seasonal or other decorations.

With a little care and attention, your composite door should continue to look great for years to come!

Maintaining your door

- Once every six months or so, apply a little light engineering oil (such as 3 in 1 oil) on all moving parts of the lock, cylinder and hinges.
- We also recommend that you help protect your door from possible natural thermal distortion by engaging the locking points by simply pulling up the handle each time you shut the door.

Hurst
