

Total Environmental Solutions

Exceeding Expectations — Every Day

With more than 40 years in oil spill response and having assisted with the cleanup of some of the largest oil spills and disasters in our nation's history, OMI has earned a reputation as one of the most dependable oil spill response companies in the world.

Our integrated oil spill services, including HAZMAT, industrial, standby rescue, waste management, disposal, transportation, environmental consulting, and training services, combined with our extensive line of environmental and safety products, providing you with a safe, timely, turnkey solution every time.

At OMI, we pride ourselves on the ability to respond with the products, equipment, and qualified professionals required to provide a quick and effective response to any type of environmental problem, regardless of when or where it occurs. Employees are our most important asset— we focus on the people who serve our customers. This ongoing focus makes safety, through our C.A.R.E.S. program, fundamental to the efficient operation of our business.

With well-staffed and response-ready facilities along the Gulf Coast, including Louisiana and Texas, and a comprehensive National Spill Response Program (NSRP), OMI is strategically positioned and equipped to respond quickly and efficiently to any type of emergency regardless of where or when the challenge arises.

We help our customers prepare for unforeseen events, which, in turn, allows us to better manage incidents in real time. At the completion of each project, we assist in the analysis and critique of the incident to provide even better service in the future.

OMI meets our customers' needs and exceeds their expectations every day.

WE CLEAN UP WELL.

MSA

OMI™

We've got this.

Safety — First & Foremost

HEALTH & SAFETY POLICY STATEMENT

OMI believes that our employees are our most important asset. Safety is at the heart of our management philosophy. OMI employees are responsible for making the safety of the general public, our coworkers, and ourselves a basic concern. This objective is fundamental to the efficient operation of our business.

The OMI C.A.R.E.S. program means to stay COMMITTED to safety, be AWARE of the hazards, take RESPONSIBILITY for our actions, EDUCATE ourselves each day, and make sure everyone around us is SAFE.

The leadership of OMI believes that while risk exists in any job:

- No job is so important that it will be pursued at the sacrifice of safety.
- Incidents and injuries are preventable.
- Working safely is a condition of employment at OMI.
- A job is well done only if it is done safely.

OMI
C.A.R.E.S.

Safety — Before They Even Start

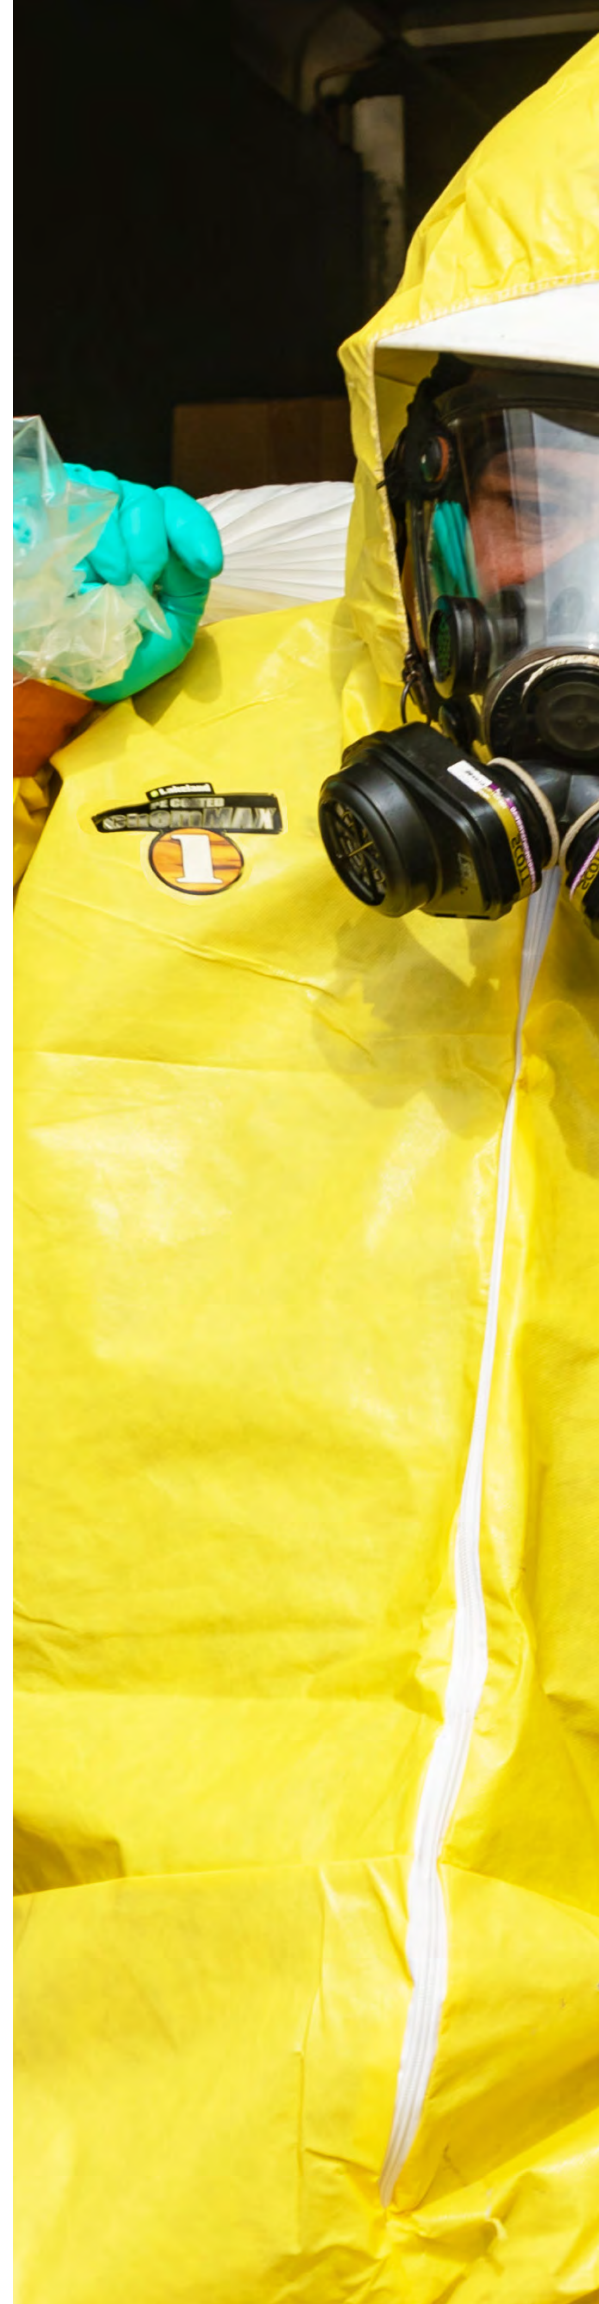

EMPLOYEE SAFETY & TRAINING

OMI requires that all employees receive proper training before they are put in any situation requiring specific knowledge of hazardous situations. We conduct in-house training on an as-needed basis, and also utilize outside training in many areas.

Our minimum training requirements for employees include:

- Safety Orientation
- 40-hour HAZWOPER
- Industrial Safety
- Drug and Alcohol Program
- Confined Space

OMI uses the Dupont STOP Safety Observation program for supervision and peer review. Employees are encouraged to identify proper safety practices as well as practices that need to be corrected. Data received is used to update training and identify areas that need improvement.

Training is everything.

24/7 Oil Spill Response

OMI has complete oil spill response capabilities utilizing response vessels up to 40 feet in length, vacuum trucks, portable vacuum systems, skimmers, self-propelled skimmer boats and more than 90,000 feet of containment boom. Classified by the United States Coast Guard (USCG) as an Oil Spill Removal Organization (OSRO), OMI's spill response services are available 24/7. With well-staffed and response-ready facilities along the Gulf Coast, including Louisiana and Texas, and a comprehensive National Spill Response Program (NSRP), OMI is strategically positioned and equipped to respond quickly and efficiently to any type of emergency or disaster.

Furthermore, OMI can utilize its capabilities for Air Markets Program Data (AMPD) coverage, decontamination, oil field cleanup or remediation services. With a world-renowned reputation and as one of the oldest oil spill response companies, OMI should be your first call!

AREAS OF DISCIPLINE INCLUDE:

- AMPD Coverage
- Decontamination
- Disaster Response
- International Spill Response
- Mobile Command Center
- National Spill Response Program (NSRP)
- Oil Field Services
- Oil Spill Removal Organization (OSRO)
- Oil Spill Response
- Remediation

AT YOUR SERVICE

24/7 HAZMAT Response

OMI is dedicated to the highest level of professionalism, preparation and safety in providing unrivaled hazardous material emergency response services 24/7. OMI personnel have specialized training and unique equipment capabilities to perform all types of hazardous and non-hazardous liquid transfers, bulk transfers, and compressed gas transfers. Our HAZMAT teams can respond to situations at fixed facilities, on land, water and underground via pipeline, and are specially trained in various situations including transportation and railcars.

Following fires and explosions, OMI can also assess and mitigate site hazards to make ready for inspection. We are also licensed to perform asbestos, mold, and lead abatement to assist our customers. The OMI HAZMAT team has the expertise and ability to respond to most chemical spills and transfers, biological, and abatement issues, utilizing our solutions-oriented approach.

AREAS OF DISCIPLINE INCLUDE:

- Asbestos, Mold & Lead Abatement
- Atmospheric Metering & Monitoring
- Biological Incident Response
- Chemical Incident Response
- Chemical (Dry & Bulk) Transfers
- Clandestine Drug Lab Response
- Compressed Gas Incident Response
- Fire & Flood Restoration
- Mobile Command Center
- National Spill Response Program (NSRP)
- NORM Survey, Assessment & Cleaning
- Unknown Chemical Response

The best in service.

Industrial Services

OMI has more than 25 years of experience in providing safe and efficient tank cleaning services. This extensive experience covers all facets of tank cleaning for hot work (gas-free) or product changes, ancillary services and many types of products including, but not limited to:

- Acid/Caustic
- Asphalt/Coal Tar
- Catalyst
- Crude Oil Bottoms
- Diesel Fuel Oils
- Food Grade/Refined Products
- Lube Oils
- Paraffin
- Plastics/Polymers/Resins

Our teams are diversified and perform onshore and offshore cleaning services for pipelines, railcars, mud tanks (oil-based and water-based), rigs, and a wide array of vessels and process equipment such as pressure vessels, separators, heat exchangers, storage tanks, slop oil tanks and cutting boxes. OMI adds value by using their ability and expertise to complete all projects safely, on time and within budget.

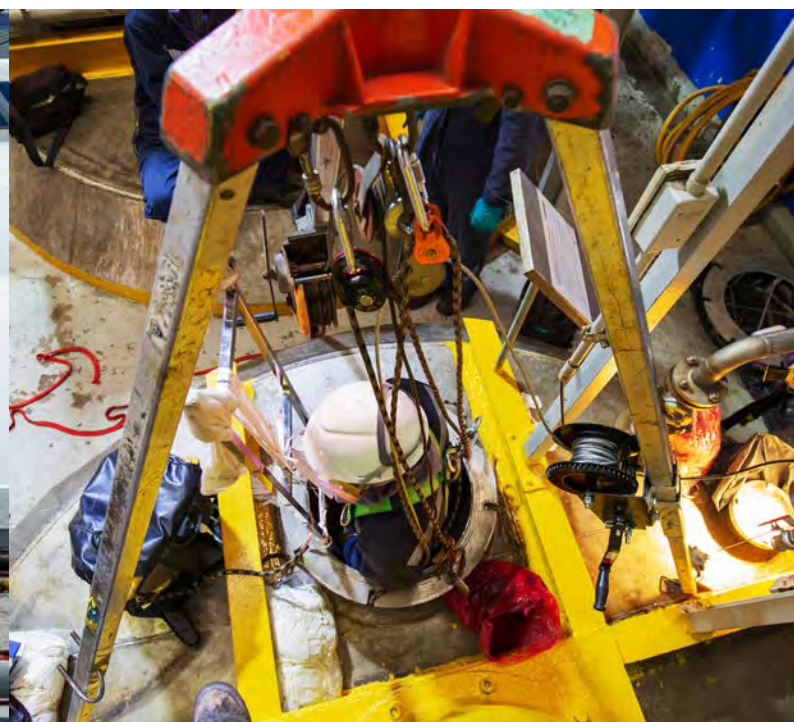

- Vacuum Services
- Hydro Blasting
- Tank Cleaning
- Hydro Cutting
- Hydro Excavation
- Pipeline Cleaning
- Railcar Cleaning
- Chemical Cleaning
- Vessel Cleaning
 - Barges
 - Ships
 - Tugs

Standby Rescue

OMI offers complete standby rescue services 24/7 that fully meet regulations for OSHA 1910.146, NFPA 1006 for training and NFPA 1983 for equipment. OMI rescue personnel work closely with our customer's safety staff and managers to effectively identify any oxygen-deficient, toxic, or combustible spaces and hazards within our customer's facility. A variety of businesses and industries including oil and gas, petrochemical, construction, municipal public works, pipelines, power plants, telephone utilities, water and wastewater facilities have utilized OMI's services

There is no limit to OMI's ability to serve our customers. Our teams are comprised of highly skilled, trained, and experienced personnel, who can assist and compliment any standby rescue need.

- Atmospheric Testing
- Breathing Air Bottle Watch
- Confined Space Attendant
- Confined Space Project Management, Planning, Supervision & Training
- Emergency Fire Watch
- High Angle/Technical Rescue
- Permit Writing

Waste Management & Disposal

OMI provides turnkey waste management services for managing and transporting hazardous or non-hazardous waste streams from non-bulk to bulk packaging. We can collect representative samples of the waste streams for submittal to accredited environmental laboratories for proper analysis/waste characterization. Once the waste stream is characterized, OMI can ship waste to a permitted facility as designated by our customer, or if the customer does not have a facility preference, we will suggest the facility which best suits the waste stream and the customer's best interest.

OMI also has N.O.R.M. licenses in Louisiana and Texas, along with 40-hour trained Radiation Safety Officers (RSO) on staff. Our waste management division can also perform background confirmation and analytical testing for site remediation through the same accredited laboratories utilized for waste characterization. We are dedicated to offering the most cost-effective, compliant and efficient methods of waste management.

Transportation Services

OMI has a large, diversified fleet of trucks, trailers and equipment. With over 20 years of experience in environmental and waste transportation, OMI has the knowledge and experience to service our customers' needs.

Our truck and equipment operators are highly trained professionals. They undergo extensive training in U.S. Department of Transportation (DOT) regulations, United States Coast Guard (USCG) regulations and they are all fully-licensed to transport hazardous materials. OMI carefully monitors all eight DOT categories including: unsafe driving; fatigued driving (hours of service); driver fitness; controlled substance/alcohol; vehicle maintenance; cargo related issues; crash indicators; and insurance.

Also, OMI inspects its trucks before and after each use to find potential issues before they become a problem. Dispatching is available 24/7. We firmly believe that keeping up with existing and new regulations is a key ingredient to achieving performance excellence for our customers.

- Air Movers
- Drum Truck Services
- Equipment Trailers
- Flatbed Trailers
- Frac Tank Rental
- Roll Off Box Rental
- Roll Off Trailers
- Roll Off Trucks
- Vacuum Trailers
- Vacuum Trucks

Environmental Consulting

OMI has highly trained safety specialists that respond to incidents worldwide 24/7. OMI provides on-site safety support and coordination for requirements that are regulatory-based (such as OSHA/DOT) or if there is a need for an Incident Command Safety Officer.

Additionally, we can assist our customers with compliance needs for the Oil Pollution Act of 1990 (OPA90) with PREP (Preparedness for Response Exercise Program), Drill Management Program, Table Top Drills, Deployment Exercises, and Plan Writing. Environmental consulting services, such as aerial surveillance, unmanned aerial vehicle (UAV) services, hydrographic surveys, safety personnel staffing, Situation Monitoring and Response Tracking (SM&RT) are also among the many services we provide. Our SM&RT program can provide Incident Action Plans (IAP) from the first day of the incident, all the way through to final reports, as well as response tracking.

The synergy of our information service lines allows our customers to receive and document, in real-time, information that will permit timely and cost-effective action to mitigate the incident.

- Aerial Surveillance/UAV Services
- Bio-Hazardous Waste Management
- Compressed Gas Cylinder Identification & Management
- Field Sampling Services
- Lab Pack Services
- Waste Characterization, Profiling, Disposal & Transportation

Training Programs

OMI has solutions for all of our customers' training needs. Our instructors are highly trained and experienced, and we offer a variety of training programs online, on-site and off-site. OMI provides training to support emergency responders as well as a variety of industries such as maritime, oil and gas, industrial, construction and more. We are always looking for new opportunities and solve problems that are specific to our customers' industry and environment. We can tailor any of our courses to meet our customers' specific needs.

OMI is dedicated to the protection of life and property by providing the highest quality training, utilizing the safest state-of-the-art techniques, hands-on training and educational programs available to emergency responders. OMI's flexible scheduling and competitive pricing allow our classes to be taught in order to best meet the time and budget constraints of our customers. Classes are developed to be site specific after a needs assessment is conducted

Environmental & Safety Products

For more than 40 years, OMI has been a leading manufacturer and supplier of oil recovery equipment. Our skimmers have become a large part of many industries, from the oil field to food processing, and can be found in diverse industries worldwide.

In 2007, we developed the OMI Environmental and Safety Products Division to enable our customers to purchase their environmental and safety products from one vendor. To make purchases more efficient for our customers, we recently launched our new e-commerce website with over 10,000 products from hundreds of manufacturers:

www.omiesp.com

OMI Environmental & Safety Products has one of the largest distribution warehouses (50,000 square feet) in the Gulf Coast area. Our commitment is to ensure that our customers' needs are met with outstanding service and quality products at an affordable price. We strive to have the products our customers need, when they need them.

AREAS OF DISCIPLINE INCLUDE:

- Absorbents
- Cleaning & Janitorial Supplies
- Drums & Secondary Containment
- Industrial Supplies
- Oil Skimmers
- Mobile Command Center
- Safety Supplies & Equipment
- Spill Kits & Spill Containment

Our Mission

Our mission is to be the premier environmental services company in the Gulf South Region by providing outstanding service to businesses, industries, and governmental agencies. We strive to be your first call when you need safe, effective solutions utilizing our experienced personnel, and state-of-the-art equipment and products.
