Harwich VTS – VHF radio system and telephone system replacement works

Mariners are advised that on or about Monday 10th June 2019 works will be carried out to replace the existing VTS VHF radio and telephone operating system with a new digital system. This work is expected to take 3 days to complete.

Resilience systems will be in use by Harwich VTS during the duration of these works and mariners may experience a reduction in operational VHF radio range for a short period of time.

Initial ETA information may be passed to VTS by email via hha.vts@hha.co.uk for the duration of these works.

A further notice will be issued on completion of these essential works.

Captain M Dunn
Harbour Master and Marine Manager
