

# Invesco Physical Gold ETC

This document is for use in the UK, Ireland and Switzerland only, and for Professional Investors and Qualified Clients as specified in the Important Information section. It is not for consumer use in other countries. Please do not redistribute. This factsheet contains a summary of the Invesco Physical Gold ETC<sup>1</sup>, an exchange traded commodity (ETC), and is for discussion purposes only. Please consult the prospectus and note the additional important information overleaf.

## Investment objective

The Invesco Physical Gold ETC aims to provide the performance of the spot gold price, after the impact of fees.

## Key advantages

- Efficient tracking of the spot price
- Transparent fees and costs

## Key risks

- No capital protection: you may not get back the amount you invested
- Commodities may be more volatile than other investments
- Changes in the exchange rate between base currency and trading currency may affect returns

## About the spot gold price

The ETC aims to provide the performance of gold, as measured by the LBMA Gold Price (PM), which is a recognised benchmark for gold. The PM price is agreed at 3pm London time and is quoted in US dollars per fine troy ounce.

## Benchmark composition

Portfolio weightings and allocations may change.

## Performance

The table shows performance over the past five years to the most recent month end. ETC performance is in the base currency, and is based on Net Asset Value after management fees. It does not consider commissions or custody fees payable when buying, holding or selling the ETC. The ETC does not charge entry or exit fees. Each period starts at the end of the indicated month. The first indicated month may not represent a full month and may start only on the launch/restructuring date indicated in this factsheet. **Past performance (actual or simulated) is not a reliable indicator of future performance.**

The value of your investment may go down as well as up. As a result, you may not get back the amount of capital you invest.

### What are Invesco P-ETCs?

"P-ETC" is the trademark name for our Physically Secured Exchange Traded Commodities. With P-ETCs, investors can get exposure to spot commodity prices, without taking physical delivery of those commodities. Invesco P-ETCs are certificates that can be bought and sold on a stock exchange. Note that certificates are a type of debt security, where the Issuer agrees to pay the investor a specified return. They are not regulated funds. Invesco P-ETCs are secured by a physical amount of the relevant commodity, held by the Custodian. If the Issuer cannot pay the specified return, the commodities held will be used to repay investors. However, investors have no claim on other assets of the Issuer (limited recourse).

### How does the ETC achieve its investment objective?

When investors purchase P-ETCs, the Issuer uses the proceeds to purchase gold bullion, which is stored in the Custodian's London vaults and valued daily at the official LBMA price. The vast majority of the gold bullion is held in allocated gold bars. Any residual amount is held in a segregated account with the Custodian.

### About Invesco
