Solid Surface

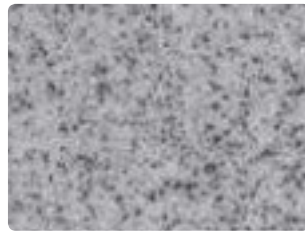

Add a luxurious feel to the washroom with solid surface vanity tops and washtroughs. An advanced composite of natural minerals and pure acrylic polymer to form a durable stone effect surface which can be formed to almost any shape. Specify integrated solid surface basins for a stunning, seamless handwash area.

Screen Print Designs

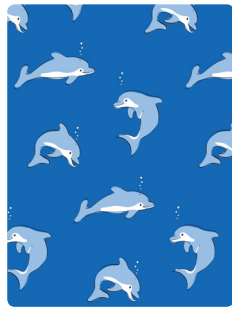

Exclusive and vibrant designs bring fun to the washroom from nursery to college. Our designs are embedded in the panel at fabrication stage to ensure the highest level of durability. Note: Grafix designs incur extra costs over standard finishes.

Grafix - Early Years

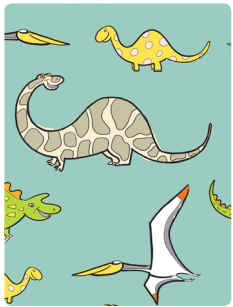

Available in SGL only. For doors and vanity panels

Balloons

Dolphins

Dinosaurs

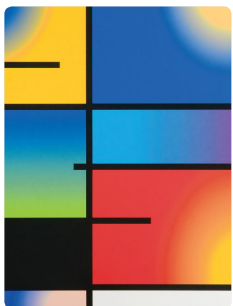

Crayons

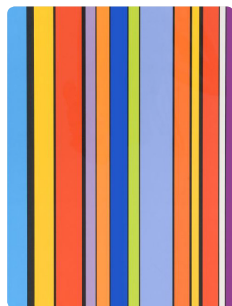

Grafix+ - Secondary and Higher education

Panel Performance options:

High Pressure Laminate (HPL)

- For dry environments // light to medium traffic areas
- 0.8mm high pressure laminate bonded to moisture resistant 16mm particleboard core to give nominal 18mm panel thickness
- Edges lipped in matching 2mm impact resistant ABS.

Solid Grade Laminate (SGL)

- For wet and dry use // suitable for high traffic environments // impervious to water
- Nominal 13mm panel thickness // solid black through core //
- Edges radiused and polished black finish

Colour sample service

- For individual samples please call 01603 424855 or email info@dunhamswashrooms.com

Visual Awareness

- Light Reflectance Values (LRV) are provided under each colour to help ensure compliance with latest building regulations. A difference of 30 points is desirable but we recommend seeking advice from your local Building Control officer.
