frameless glass doors

contemporary hinged and sliding

[www.goglass.co.uk](http://www.goglass.co.uk)

Increase the  
feeling of light  
and space in  
any room

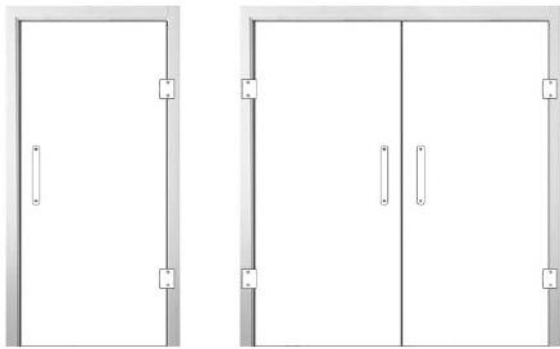

# Stylish and contemporary

The Project range of glass doors are easy to install into a new or existing opening and you can remove any wooden door and fit a glass one in its place.

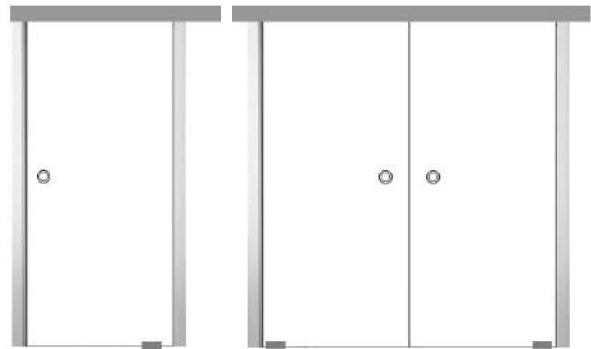

## Door choice & configurations

Both Project Hinge and Slide glass doors are available as single and double doors and can be combined with a fixed glass pane to create complete internal glass partitions.

### Frameless hinged doors

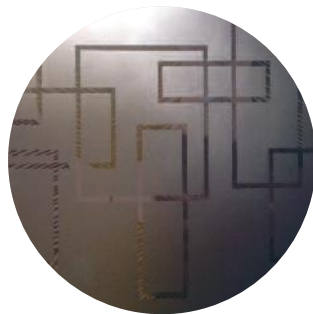

### Frameless sliding doors

#### Clear

Design is etched onto clear glass to give a positive finish.

#### Obscure

Background is etched to leave a clear design.

#### Privacy

Design is etched onto a fully etched door for privacy.

## Technical Specification.

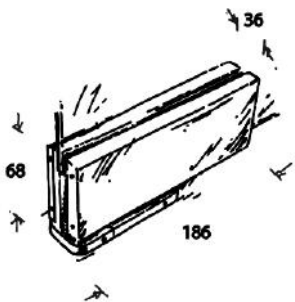

### **P**roject hinge

The perfect choice for a hinged glass door up to 900mm wide. Side mounted double action hinges allow the door to open both in and out and self centre to close.

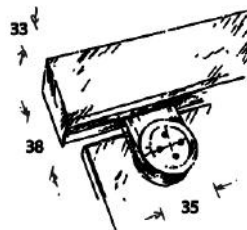

### **P**roject slide

A quiet running action and soft open and close facility make this sliding glass door system perfect for doors up to 1200mm (max weight 70kgs) No channel is required in the floor.

### **P**roject hinge

For larger heavy duty doors up to 100kg supplied with hydraulic bottom mounted hinges with self close and hold open facility.

### **P**roject slide

This heavy duty sliding system will accommodate doors up to 2000 wide.
