The Senses® System combines the most desirable aesthetic features with innovative design.

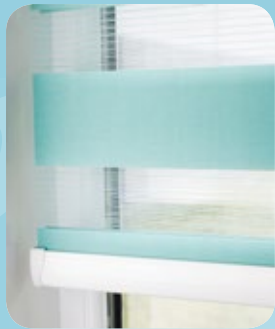

Style & Flexibility

Senses® Mirage™ incorporates both the style of Senses® with the flexibility of the Mirage™ fabric to offer enhanced light control.

Beautiful Fabrics

With over 30 fabrics to choose from including plains, textures and dim-out, the Mirage™ Collection offers something for everyone.

The unique nature of Mirage™ fabrics brings enhanced light control, with the flexibility to have your blind fully open, fully closed or anywhere inbetween, giving additional options not available with your traditional roller blind.

Senses® Mirage™ System

Senses® Mirage™ blinds can be fitted either inside the recess or face fix, giving flexibility for where they can be installed.

They are also available in a choice of either a chain operated system or our Child Safe motorised system. The motorised option is supplied with a simple remote control, eliminating any operating cords or chains.

Our chain operated system can be used in conjunction with our range of Child Safety components to ensure this system is also compliant with the Child Safety requirements of the legislation BS EN13120.
