

Linex-Boat announces the launch of the 2020 Nord Star 31+ Patrol

The key features of the new Nord Star 31+ Patrol are spacious, well-equipped living spaces and excellent offshore properties. The walkaround deck with three doors ensures that walking on the deck is always safe and hassle-free. Both sleeping cabins are designed for a mature taste. The front cabin has a bed for two and is adjoined a large head. In the aft there is a spacious center cabin with a bed for two to three persons. The luxurious salon adds extra comfort for excursions, not to mention the well-equipped galley. New for this model is a solar panel that will come as standard equipment. The boat, as every Nord Star, has a hand-laminated and strong hull which gives it the strength to shear through breakers with confidence, making it an excellent boat for, for example, long trips or excursions in the archipelago. Nord Star 31+ Patrol replaces the Nord Star 30 Patrol model.

Nord Star Boats

Nord Star boats are manufactured to last for decades in the Nordic climate. Ranging from an 8-meter multi-purpose boat to a 15-meter luxury yacht. All Nord Star models are equipped with an extremely durable hull, luxuriously pampering décor and top-notch ride comfort and safety. What gives the boats their perfection, is the boat building heritage that has been passed on from generation to generation, combined with modern, innovative building methods, the Nord Star is a true voyager of northern seas. All Nord Star boats are IMCI CE-B Offshore rated.
