

Bow Fenders

Bow Fenders

A bow fender is a fender with many uses. Of particular interest to sailing schools and those wishing to moor bow-on into marina berths. There are two types of bow fenders: 0011 and 0041 have a bulbous shape with 0041 having a central through line attachment; 0021 and 0031 have a strap around the middle for secure three-point attachment.

They are available in blue and white.

Part no	Diameter x length		Weight kgs
	cms	inches	
0011	15 x 13 x 28	6 x 5 x 11	0.60
0021	28 x 10 x 38	11 x 4 x 15	0.80
0031	38 x 13 x 56	15 x 5 x 22	1.60
0041	31 x 20 x 48	12 x 8 x 19	1.80
