

## English

In English we will study an abridged version of 'Charlie & The Chocolate Factory' by Roald Dahl. We will develop our knowledge of characterisation and writing short stories with characters that have character flaws.

The children's SPaG skills will continue to be developed during our daily 'basic skills', phonics and spelling sessions.

## Mathematics

The key areas this half-term are: place value, addition & subtraction and angles.

The children's number skills will continue to be developed during our daily 'arithmetic' and weekly times tables sessions.

## Science

We will learn all about the various organs of the human body – the different jobs they have and the relevant 'systems' that they belong to.

## Enrichment Activities

We are aiming to have a chocolate masterclass ... watch this space!

# Oak Class

## 'From Bean to Belly'

### CHOCOLATE

## Religious Education

We will focus on Creation and Science. Can the two coexist? Which aspects of Genesis are supported/refuted by the scientific community?

## MFL

We shall be learning basic greetings and how to count to 20 in Spanish.

## D&T

We shall be finding a 'gap' in the chocolate market and designing and producing our own confectionary.

## Geography

We will locate the top cocoa producing countries of the world and examine their climate as well as the financial impact cocoa trading has on their respective Gross Domestic Product (GDP)

## History

We will trace the story of chocolate back to the Mayan civilisation – studying how cocoa was consumed, their gods and the impact of the Spanish explorers upon them.

## PSHE

We will discuss the ethical questions raised with eating chocolate including: Fairtrade, obesity and addiction.
