

**RVTRENTAVENT**  
EXCELLENCE IN ENVIRONMENTAL CONTROL

Your Centre of Excellence for  
**Construction**

Your Centre of Excellence for

# Construction

Our first priority is to ensure your workforce is able to operate safely and people near to works are protected. With many companies now part of the 'Considerate Contractors' scheme there is also increasing pressure to minimise the impact of site works on the surrounding infrastructure and environment.

Through innovative, flexible and tailored solutions, RVT Rentavent ensures personal exposure to dust, fumes and noise does not exceed limits set out by the HSE, humidity and temperature is controlled to allow continuation of work through adverse weather conditions, and the impact of construction works on the public is kept to a minimum.

*Zero accidents*

*Certainty*

*On-time delivery*

*Cost-efficiency*

*Very helpful, friendly staff and fast response to enquiries and queries.*

product range

# Safety Control

Vast sector  
expertise

## The Tate Britain Noise control

By cladding a scaffold structure with SOUNDEX™ acoustic curtains, RVT Rentavent ensured that visitors to the renowned art gallery were not affected by noise generated from construction works adjacent to the building.

## Imperial War Museum Exhaust fume control

During a major refurbishment programme at the world famous Imperial War Museum, RVT Rentavent provided exhaust fume extraction for cranes positioned in the main entrance gallery where military vehicles and aircraft would be exhibited.

## Ascot Racecourse Heating control

During construction of a premium hotel at Ascot Racecourse over winter, RVT Rentavent provided dry heat to multiple floor levels using indirect oil fired heaters. Temperature and humidity was controlled, preserving specialist flooring and joinery work and ensuring the project stayed on schedule.

## We put more in so you get more out

RVT Rentavent provides temporary air quality and environmental solutions that control dust, fumes, noise, stale air, heat and moisture in the most critical working environments.

We know that what we provide our customers with is just as important as what we take away – our sector-specific knowledge and expertise, our innovative approach to problem solving, unrivalled levels of service and a proven track record on world-class projects all combine to make us a true **'centre of excellence'**.

*The kit was easy to manage and very versatile. Noise pollution was minimal and our client was impressed. We would not hesitate using your plant again and would recommend it to other contractors if required.*

## DUST CONTROL SOLUTIONS

### DUSTEX™

- ✓ Extraction and filtration during internal demolition.
- ✓ Water suppression during complete demolition.
- ✓ Dust control during drywall sanding, chasing, grinding and cutting etc.
- ✓ Hand tool extraction for cut-off saws, routers and chasers.

## NOISE CONTROL SOLUTIONS

### SOUNDEX™

- ✓ Noise barriers on scaffolded facades to reduce noise outbreak from demolition work in sensitive neighbourhood areas.
- ✓ Noise control for generators sited in noise-sensitive areas.
- ✓ Noise barriers suspended from temporary fencing surrounding noisy construction processes.

## VENTILATION CONTROL SOLUTIONS

### VENTEX™

- ✓ Ventilation of basements during top-down basement construction.
- ✓ Ventilation of shafts and tunnels during major infrastructure projects.

## EXHAUST FUME CONTROL SOLUTIONS

### RAVEX™

- ✓ Filtration of diesel exhaust fumes at source with 'add on' exhaust filters for diesel plant carrying out excavation works within basements.
- ✓ Filtration of access plant diesel exhaust fumes whilst they work internally during construction and fit-out of retail stores and distribution warehouses.
- ✓ Extraction from drilling rigs and generators in confined spaces.

## FUME CONTROL SOLUTIONS

### RAVEX™

- ✓ Paint and adhesive fume control during specialist applications.
- ✓ Deodorising fire damaged properties.

## HEATING & DRYING CONTROL SOLUTIONS

- ✓ Temporary heating for drying out of plaster and screed during winter months.
- ✓ Temperature control for specialist flooring and adhesive applications.
- ✓ Humidity control for heritage buildings and new builds with architectural woodwork.

# Giving you **what you need,** removing **what you don't**

**We're committed to delivering 'Excellence in Environmental Control' for the Construction Sector.** Whatever sector you're working in, and however demanding your responsibilities, you can be confident that RVT Rentavent will help you overcome your challenges.

## Make the right decision

- ✔ Solving problems with innovative, tailored and cost-effective solutions.
- ✔ Working closely with you and sharing knowledge and expertise to get the best outcome.
- ✔ Achieving a balance between compliance and cost without compromising on safety.

## Total peace of mind

- ✔ Ensuring projects are delivered safely, efficiently, on time and to budget.
- ✔ Providing solutions that are guaranteed to work and demonstrate value for money.
- ✔ Avoiding unnecessary delays and allowing you to get on with day-to-day tasks.

## Safe in the knowledge

- ✔ Ensuring workforces and those around them are protected at all times.
- ✔ Complying with the strictest HSE legislation, ISO regulations and company policy.
- ✔ Meeting your 'Zero Accident' target and keeping RIDDORS to a minimum.

## World-class solutions for world-class success

We're focused on delivering our promises and firmly believe that a team with a real can-do attitude can achieve anything. It's this attitude that lies at the heart of everything we do.

With a track record of success on some of the world's most prestigious projects we ensure customers keep working efficiently and effectively and get the job done safely in every sector from Construction, Rail, Retail and Marine to Water Schemes, Civils & Utilities, Healthcare and Industry.
