

IMS Chiropractic™

Easily document everything from injuries and accident questionnaires to exams and treatment plans

AUTOMATE YOUR PRACTICE WITH A MULTI-CERTIFIED EHR SOLUTION

In a highly specialized area of medicine like chiropractic care, your reputation matters. It helps determine the number of referrals you receive from primary care physicians and potential patients' family and friends. Today, many people base their selection on how modern a practice is. Wouldn't you like to be known as one of the most modern, technologically savvy chiropractors in your area?

Well, you can be with IMS™ (Intelligent Medical Software) from Meditab Software. IMS combines sophisticated clinical and administrative tools to help you provide exceptional patient care with cutting-edge technology. Our next generation platform helps you streamline documentation, improve communication and eliminate process inefficiencies to take your practice to the next level. It seamlessly links electronic health records, practice management, a patient portal, e-prescriptions, reporting and more into one totally automated, fully integrated solution. You can choose from cloud or server-based options and access it through a variety of the latest technology devices.

ENHANCE YOUR DOCUMENTATION AND YOUR PRESCRIPTION TREATMENT PROCESSES

IMS Clinical™ provides chiropractic-specific templates to document injuries, accident questionnaires, therapy and any step in your patients' treatment plans. The customized, comprehensive templates help you efficiently manage patient care and document every detail quickly and accurately. The IMS EHR templates are comprehensive enough to use as installed, or they can be customized to meet the more specific needs of your practice and your providers.

SIMPLE NAVIGATION YIELDS COMPREHENSIVE DOCUMENTATION

Whether your patients need basic exams or more complex screening, you can easily document a patient visit in just minutes with IMC Clinical™. This powerful EHR features exclusive "Link With" technology that allows you to link to pre-formatted symptoms and treatments for common conditions. By using these protocols, you can complete visit notes in just seconds. IMS Clinical minimizes the clicking required to document a patient visit while providing you with a comprehensive visit note. It's a win-win - you get more time to see more patients and your patients get even more comprehensive care.

Chiropractic-specific templates for:

- » Injury History
- » Auto Accident Questionnaire
- » Workers Comp
 - Work Compensation
 - Questionnaire Treatment
 - Work Restriction Templates
 - Work Status Templates
 - Mode of Injury
- » Examinations
 - Inspection
 - Active Range Of Motion
 - Passive Range Of Motion
 - Palpation
 - Muscle Exam
 - Orthopedic Exam
 - Neurovascular Exam
 - Reflexes
 - Dermatome
- » Treatments
 - Treatment Therapy
 - Treatment Plan
- » Treatment Schedules
 - Modality
 - Techniques
 - Discussion

Real Return: Benefits of IMS Chiropractic

- » Enhance the quality of care already being provided and better manage risk.
- » Virtually eliminate the paper clutter and free up file storage space for productive use.
- » Deliver care summaries and other information required by Meaningful Use.
- » Reduce office expenses related to chart creation and paper document printing.
- » Use built-in reporting tools to analyze your practice's patterns for pay-for-performance, meaningful use requirements, quality measurements, and business analysis.
- » Allow patients to complete forms with an integrated patient portal and in-office kiosk.
- » Achieve interoperability and connectivity with other health care entities, pharmacies and labs for referrals, orders, and results.
- » Receive 24/7 support from a national team of industry experts
- » Automate prescription writing, drug interaction and formulary checking with automatic alerts, and a fully-integrated drug database.
- » Decrease labor-intensive chart pulls and re-files for records requests and audits.
- » See more patients in less time.
- » Eliminate transcription costs.
- » Qualify to receive HITECH incentive payments.
- » Reduce billing errors & denials, and receive greater reimbursements faster.

ASES Shoulder Scoring System
IMS, AMMIE [45y 5m]

Template: ALL

Edit Template

- Are you having pain in your shoulder?
- Do you have pain in your shoulder at night?
- Do you take pain medication (aspirin, Tylenol, Advil, etc)?
- Do you take narcotic pain medication (codeine or stronger)?
- How many pills do you take each day (average)?
- How bad is your pain today (rate on a scale of 0-10 with 10 being the worst)?
- Does your shoulder feel unstable (as if is going to dislocate)?
- How unstable is your shoulder (rate on a scale of 0-10 with 10 being very unstable)?
- Activity Rating

Total ASES score: 29

ENHANCE YOUR PATIENT COMMUNICATIONS

Connect with your patients and expand the reach of healthcare beyond the office walls with IMS CarePortal. This powerful patient portal allows you to engage patients by providing anytime access to educational information, Rx, labs, diagnosis, appointment requests, confidential messaging, bill pay, and much more. IMS CarePortal is tightly integrated with IMS and enables patients to access and update their secure health record information from anywhere they have internet access.

The IMS CarePortal:

- » Enhances the patient experience
- » Provides 24/7 access to clinical information
- » Saves staff time and increases efficiency
- » Reduces incoming phone calls and redundant paperwork
- » Allows patients to complete forms online
- » Reduces office wait times

Create custom pre-visit forms for your patients to fill-out and have the information automatically imported into your EHR.

"I would certainly recommend IMS to any colleague. The support and personal, prompt attention we've received, in addition to the training resources and the clear, open communication, are above and beyond the level of any other system we evaluated."

— **Ann Hiner, Practice Manager**
Timberlake MD

With the IMS CarePortal, patients can:

- » Pay their bills
- » Request appointment and receive reminders
- » Submit prescription refill requests
- » View lab results
- » Be assured of SSN privacy with secure messaging
- » Provide required consent for recording & enforcement
- » Complete a pre-visit questionnaire or symptom assessment
- » Complete custom health forms

Use IMS Care Portal to allow patients to fill-out forms before their office visit and easily import that data into the EHR.

"Having Meditab support staff onsite for the implementation and then easy access to the call center afterwards made our transition a fairly easy one."

— **Donald Kirk**
Southeastern Interventional Pain Associates
(SIPA)

UP-TO-DATE INFORMATION ANYTIME, ANYWHERE

If you're someone that needs access to patient information after-hours, IMS Go is the solution for you. IMS Go is available for Android™ and iOS™ devices and gives you mobile device access to patient charts from anywhere, anytime. IMS is also Tablet PC-enabled and supports voice, stylus, mouse or keyboard data entry. With IMS, all the information you need is always right at your fingertips.

MANAGE SCHEDULING & BILLING MORE EFFICIENTLY

A busy chiropractic practice needs a comprehensive practice management solution. IMS Manager™ provides you with:

- Scheduling
- Self-service Check-in/check-out kiosks
- Authorizations & referrals
- Patient tracking
- Billing & claim scrubbing
- Revenue cycle management
- Reporting and provider dashboards
- Alerts & reminders
- Meaningful Use dashboards and more.

IMS empowers you to streamline operations, optimize work-flow, identify inefficiencies, track receipts, enhance revenues, and maximize patient satisfaction. You also can reduce billing errors and denials, better manage cash-flow and manage insurance verification

The screenshot shows the 'Antigen Billing' window with a table of patient billing records. The table has columns for Patient, Consent Date, Annn. Date, Last Shot, No Of Shots, Tot Units, Max Billed in Units, Last Billed Units, Serum CPT, Due Units, Cycle Days, Patient Provider, and Case.

Patient	Consent Date	Annn. Date	Last Shot	No Of Shots	Tot Units	Max Billed in Units	Last Billed Units	Serum CPT	Due Units	Cycle Days	Patient Provider	Case

Features

Chiropractic Templates	Documenting conditions and symptoms is faster and more accurate using intuitive chiropractic templates. Access comprehensive clinical content — document a complete office visit, including pre- and post-treatment appointments, with user-friendly, specialty-driven templates.
Clinical Decision Support	Care Protocol provides users with HPI templates for common conditions and lets you use them as they are or modify them to meet your practice needs. With a comprehensive clinical flow chart that lets you chart by exception, you can quickly and accurately document each encounter.
Exclusive "Link With" Logic	Link to pre-formatted symptoms and treatments for common conditions to complete visit notes for common diagnoses in just seconds.
One Click Access to Patient Data	Access the patient record screen from anywhere in the EHR with one click. Intuitive interface features collapsible side link panels giving you as little or as much information you want to see on a single screen.
"My Tasks"	The "My Tasks" dashboard helps you manage your time and outstanding work-to-do by drawing your attention to items such as your schedule, newly arrived lab results, unsigned encounter notes and tasks that you've assigned to staff or have been assigned to you and your appointments for that day.
Lab Ordering, Reviewing and Tracking	Supports HL7 interface so you can send or receive diagnostic lab orders electronically using IMS OrdersPlus. Customized test templates and pre-printed order forms. Pre-import checking. Comparative and graphical representation of lab data saving physicians' time.
Patient Portal	The IMS CarePortal provides patients with secure, online 24/7 access to their health information to: request appointments and prescription renewals, pay their bills, access educational information, complete pre-visit questionnaires, upload required documents and forms and more.
Reporting and Dashboards	Over 100 report options empowers office administrators to produce easily generated summaries or detailed overviews of every aspect of the medical office operation. Additionally, with integrated Meaningful use Dashboards, administrators can gather real-time indications of their current Meaningful Use levels and even drill down and review patients contained in the reporting. Customized Reports allow for the monitoring of CMS-required data elements and quick exporting of the data for attestation.
E-Faxing	The integrated IMS Fax Cloud e-fax solution eliminates fax machines, cuts costs, and makes sending and receiving faxes a breeze.
Auto Check-In	Auto Check-In kiosk feature lets patients check-in on their own. This feature reduces workload and helps in managing a higher patient flow.

(cont. on next page)

(cont. from previous page)

Billing and Collections	Keep finances on track with tools to: generate Super Bills, provide strong validations, pre-check EM codes, CMS-1500 or UB92 claims, automatically reconcile accounts (ERA), and enhance collections. A built-in E&M Coding calculator helps to prevent lost charges and to maximize reimbursement.
Authorization & Claim Scrubbing	Reduce missing authorizations and claim rejections with authorization checking at Check-In and Charge Posting. Authorization requirements can be set by procedure and insurance criteria.
Bar Coded ID Cards	Register patients with accuracy and speed using fully automated Bar-Coded ID Cards. Have accurate patient verification and correct critical data with just a swipe. ID cards can be printed from the scheduler, at check-in/out and reports. Manage high patient flow with a fast and accurate check-in process.
Document & Image Management	Condense and organize files into a user-friendly, easily accessible digital document file cabinet. Organize documents with customized folder tabs, the integrated fax management module allows you to fax from the system, scan in documents, images, driver licenses, insurance cards, and more.
Scheduler with Automated Appointment Reminders	Easily schedule patients with the intuitive, color-coded interface and setup automated reminders to call patients to confirm their appointments. Minimize no-shows, increase your practice's revenue and improve your office efficiency. Select from a variety of standard messages or create your own custom message, or if you would prefer the option of a live-person appointment reminder/scheduling service IMS supports that option as well. Receive a printed report of who was reached and who was not for greater accountability.
Referral Management	Built-in tools for referral tracking, letter generation and communications makes it easy to communicate with referring providers. Forms and letters for patient referrals are automatically populated with patient data, treatment and provider information and feature customizable input fields for those patients with unique needs. Inbound referral letters can be scanned or faxed directly into the electronic patient record.
Mobile / Device Options	IMS Go - available for Android and iOS - gives providers mobile device access to patient charts from anywhere, anytime. IMS is also Tablet PC enabled and supports voice, stylus, mouse or keyboard data entry
Delivery Platform Flexibility	Client-server, cloud or micro-cloud-based delivery models are available to suit the needs of each individual practice.

About Meditab

Established in 1998, Meditab Software, Inc., developers of IMS (Intelligent Medical Software), offers clinical automation systems that maximize productivity, advance patient care, manage utilization, and reduce costs. Meditab develops and supports a multi-award-winning, multi-certified Electronic Health Records (EHR) system that combines clinical charting, e-prescribing, population management, decision support, practice analytics, document imaging and much more, on a single database platform. The company takes tremendous pride in providing comprehensive, user-friendly, and affordable solutions for each practice's unique needs. Time tested and proven, IMS generates tangible returns for medical practices of all sizes. Headquartered in Oakland, California, with offices across the globe, Meditab supports hundreds-of-thousands of users nationwide.

For more information, please visit <http://www.meditab.com> or call (510) 201-0130.

It's Not Too Late to Participate in EHR Incentive Programs

The Medicare and Medicaid EHR Incentive Programs will provide incentive payments to eligible professionals, as they adopt, implement, upgrade or demonstrate meaningful use of certified EHR technology.

Purchase with Confidence

IMS is guaranteed to meet all of the ARRA meaningful use criteria and requirements or your money-back. For details, visit [meditab.com](http://www.meditab.com).

For complete details, visit <http://www.meditab.com>

Certified to Meet Meaningful Use

IMS, v.14.0 is ONC-ATCB certified as a Complete EHR. IMS, v. 14.0 is also certified in CCHIT's separate and independent program and is a CCHIT Certified® 2011 Ambulatory EHR.

Easily Become a Meaningful User

IMS features a unique Meaningful Use Dashboard that quickly identifies meaningful use deficiencies. Review clinical data with graphical charts identifying patients not meeting clinical measures quickly and easily. Tasks, reminders, alerts and letters can be generated to improve meaningful use status.
