Out of Peru comes a story of strength, unity and hope. A speciality coffee, Caf  Femenino Peru, has evolved that is changing the role of women in rural coffee communities. Female coffee growers have become better educated, organized and for the first time are producing women's coffee as a speciality commodity. This fair trade and organic Certified coffee is grown, processed and traded exclusively by women. The women then decide how to use the additional funds to better their lives and those of their children.
