The Dreambox Full Cassette awning is the most advanced awning currently on the market.

The Dreambox is a specially designed system that completely protects the fabric and the mechanism of the awning from elements when retracted.

For Commercial & Residential applications.

- **constructed from corrosion resistant extruded aluminium & stainless steel components for durability**
- **wide range of canvass colours**
- **bespoke printing service**

## ▶ Awnings Full Cassette Gallery:

The most common awning on the market is known as a semi cassette awning.

Our awnings can be made up to 8 meters long with a 3.5 meter projection and they can be operated manually or electronically.

The cover material used can be canvass or PVC.

- constructed from corrosion resistant extruded aluminium & stainless steel components for durability
- wide range of canvass colours
- bespoke printing service

▶ Awnings Semi Cassette Gallery:

Our traditional Victorian awnings are made the same way as generations of blind-makers have been doing since 1800's.

Manufacturing methods are the same but with the use of modern textiles, varnishes, paints and production tools, we are confident that the final product will outlast any original traditional Victorian awning whilst adding that charming period style to your building.

## ▶ Victorian Awning Gallery:

Dutch canopies are the most common type seen on Britain's shops, restaurants, hotels and more than ever on domestic properties.

Dutch canopies provide shade both to the outside and the inside of premisses and they can be a perfect three-dimensional sign when graphically decorated.

- constructed using extruded, die-cast anodised aluminium
- wide range of canvass colours
- bespoke printing service

► Dutch Canopy Gallery:

- constructed using extruded, die-cast anodised aluminium
- suitable for shops, restaurants, hotels and domestic properties
- fixed frames / non retractable
- height of the canopy doesn't have to equal the projection
- bespoke printing on main and valance for commercial applications
- choice of canvases / PVC
- wide range of colours

▶ Wedge Canopy Gallery:

An entrance canopy is the perfect way to welcome people to your premises.

Entrance canopies can also be used to promote your business as a three-dimensional sign.

- constructed using extruded, die-cast anodised aluminium
- wide range of canvass colours
- bespoke printing service

▶ Entrance Canopy Gallery:

New shapes.  
Traditional materials for unusual applications.  
An innovative interpretation of the simple concept of sun covers.
