

Hygienic Tube

Our hygienic tube range is manufactured to ASTM A270 both fully annealed and non-annealed.

Supplied in dull polished, descaled or bright annealed from stock. Grades stocked are AISI 304L/1.4307 and 316L/1.4404.

Our full range of hygienic products is fully certified to exacting international standards, with careful attention to ensuring material quality is to the highest standards. We also offer tubes certified to DIN11850, ASTM A269 and EN 10217-7.

Delivery within 24 hours from our stock in the UK.
